

RECORD BREAK-
ING SALE.

Robinson Farm Brings
Over \$300. an Acre.

While not a large crowd attended the Curt Robinson farm sale yesterday, everyone on hand seemed to get in the bidding, which became lively before the close of the sale. The farm was sold at an average of \$302.35 an acre, a record breaker for Garrard county for this size farm, selling at public auction.

The sale was conducted by the United Realty Company, of which Mr. Oliver T. Wallace is manager. He was assisted locally by Mr. D. A. Thomas, of the Thomas Realty Company.

Mr. Wallace was disappointed in not getting his auctioneer, but the public was not, for it found in Mr. Wallace, one of the best auctioneers who has taken the block recently and proved an adept in this line.

The farm was sold in six tracts and the following is a list of the purchasers: Mr. G. C. Walker bought the home and twelve acres for \$10,150; Riley bought one tract 28 acres, \$301 an acre and a 20 acre tract for \$256 an acre; Odus Naylor 10 acres at \$272.50; Dut Huffman 15 acres at \$240 an acre; Luke, Sherrow one tract of 27 acres for \$252.50 and one tract to Courtney Roberts for \$315; bringing the average for the 140 acres up to \$302.25.

AERO CLUB

To Be Organized To-
morrow Night.

Last Monday night a number of citizens of the town met at the court house and tentatively organized an Aero Club, every one present expressing a desire to become a member. The object of the organization is to look after the permanent Aviation Landing Field, that has been established here and that will menu-
sion to the town and county. Major

Ehols who was here last Sunday, in-

forms us that Lancaster is ideally and

geographically located for a permanent landing field and when all the de-

tails are completed will be used as a base by the government from Camp

Knox, to visit points in Central Ken-

tucky. He says an aero photo will be

taken of the town and park which

alone makes it unusual as no other

town in Kentucky has the Park layed

off in a Maltese cross, which is so

similar to the cross used in landing

fields to guide the aviator. This

photo when completed will be used in

an aero map of Kentucky and sent

to aviators all over the United States.

Membership committees were nomi-

ned last Monday night and are meeting

with the cooperation of the public, all

feeling that the landing field here will

be a great boost for the town and

county.

Another meeting is called for to-

morrow, Friday night at the court

house, when a permanent organiza-

tion will be formed and officers

elected.

Come to this meeting and don't

turn a deaf ear to a proposition that

will mean so much to Lancaster and

Garrard county.

Baptist Church.

Last Sunday this church gave \$153

to the Kentucky Baptists' Orphans

Home. This is a splendid offering to

a worthy cause and we may justly

pride ourselves on our offering.

Come worship with us Sunday.

Sunday School 10 o'clock A. M.—

Subject, "Baptism".

Preaching 11 A. M. by the pastor.

Subject—"How Shall We Escape?"

A few items of very important busi-

ness to be transacted.

Services will positively be con-

cluded at twelve o'clock.

C. D. Strother, pastor.

Ball Game.

Paint Lick will cross bats with the Berea team next Saturday on the former's grounds and the game will be called promptly at 3 o'clock.

This will be a game worth going many miles to see and we predict a great crowd as each team will have boosters and friends on hand to see one of the best games of the season.

Paint Lick has won many games this season and seems almost invincible, but Berea claims she will take their measure next Saturday, so the public may be prepared for a contest that will be interesting.

Regular meeting of the W. C. T. U. Saturday at the Club room at 3 o'clock.

CLOSE CALL

W. N. Brown Goes Over
Bank Near where two
Ministers Were
Killed.

Last Tuesday afternoon Mr. W. N. Brown, of Harrodsburg, had a very narrow escape from serious injury or death. With Mrs. Brown he was returning from Lancaster and when their car reached the point in the road near the bridge where Rev. Clyde Sheltman, of Selinsville, and Rev. Elbridge of Paint Lick, were buried under an embankment and killed a short time ago, Mr. Brown stopped the car to look about the place and show the various points to his wife. When he attempted to start the machine he had difficulty getting it up the hill, and thought if he would back a little he could make the grade more readily. Mrs. Brown got out to direct her husband in the lay of the road, and in the effort to get the machine going it backed off of an embankment near where the car of the two ministers had been buried. The machine landed on the rear part and the engine pointed straight up, but by some miracle Mr. Brown escaped without injury. They secured another car and went on to Harrodsburg that night and the next morning Mr. Brown sent a truck and tackle to the spot to pull the machine back to the road and take it home.

Community Nurse Here.

Miss Margaret Frost, who has been appointed the community nurse for Garrard county has arrived and has engaged rooms at the Kangaroo hotel.

Buys "Lexington".

Mr. W. J. Romans is one of the latest purchasers of that handsome and popular car known as the Lexington, demonstrated by Mr. M. H. Johnson, who has the exclusive agency for five counties. It is considered one of the best cars on the market and every owner is a booster for it.

Colored Boys Return.

Several of our worthy colored boys have recently been mustered out of the service and have returned home after a year or more spent on or near the battle front. Among those returning this week were: John Burton, Eddie Robinson, Billy McCoy, Eddie Thomas, George Benny, Charlie Leavell and Price Logan.

War Relics.

Mr. Asie Barnett, who is in the service overseas, and is a son of Mr. and Mrs. C. C. Barnett of this county, sent to his parents an interesting group of war relics, which the public is cordially invited to inspect in the window of the Record office.

Some of the relics were loaned by our colored friend, John Burton, who has just returned and is reciting some exciting experiences he had while at the front.

Untagged Dogs Killed.

Since January 1st, Sheriffs in seventy-six counties of Kentucky have killed 4,600 dogs, of which 4,394 were unlicensed and 206 outlaws bearing license tags. Henderson county holds the record of 344 killed, and Union next with a score of 275. Trigg county impounded 379 unlicensed dogs but slew only eighty-three of them. Lee, Lyon, Livingston, Pulaski and Rockcastle counties neither impounded nor killed any. The record under the dog license shows 3,648 unlicensed dogs impounded and 4,394 killed. 140 licensed dogs impounded and 206 killed. Thirty-nine counties have not reported.

Services will positively be con-

cluded at twelve o'clock.

C. D. Strother, pastor.

Architect Here.

Mr. Fred Manley, chief architect for the Garrard Tobacco Warehouse was in the city yesterday inspecting the work of the building which is going up rapidly. When asked what he thought of the building, he said: "There won't be a better one in the State of Kentucky." "I have planned over a hundred and this will be when completed the most up-to-date one that has ever come under my observation".

In speaking of the cost of the building, he said, "the material that was purchased for the sheathing for the building can be sold today for a handsome profit and the tar and gravel roof, that was contracted for \$4.75 a square is the greatest bargain I have ever known". "I contracted for the same roofing for another warehouse that cost the firm \$7.50 a square".

JAIL TAX DODGERS

Roper Refuses \$1,500,-
Offered By Boston Wool Merchant
To Escape.

Tax dodgers, rich and poor, were promised the full lind of the law to come in a statement commenting on the recent conviction in Boston of William A. English and John H. O'Brien, wool merchants who returned their taxes at \$101,000 instead of \$1,378,817.

"It is our determined policy," Mr. Roper said, "that wealth shall not interfere to prevent willful tax dodgers from going to jail. The big and financially able must be treated in the same way as the small willful violators and hence compromises through money will be rejected."

Mr. Roper said the government refused to allow English and O'Brien to pay \$1,500,000 to escape prison sentences. Civil proceedings will be begun immediately by the government to collect the tax due from them, and the additional penalty.

AERIAL MOVIE
To be Shown Next Tues-
day Night.

An aerial movie picture will be shown at the Roman's Opera House next Tuesday night, under the direction of the recruiting officers for the aviation branch of the United States army now stationed here.

This is said to be a wonderful picture, taken in action and shows the position of the planes when in battle formation. Don't miss it.

Buckeye High School
Opens July the 14th.

We are glad to announce that the Buckeye Consolidated High School opens its first session the 14th of this month. The prospects are bright and we are expecting its first year to be highly successful. This community has the reputation of being the best in the county. The school building is large, modern and beautiful. We feel that the community has done its part and now it is left to the teachers to do theirs. And this we shall strive to do.

And may we ask that every lover of Buckeye will cooperate with us in every way possible to bring the best educational advantages possible to the boys and girls of this community.

Sincerely,
Caskey Tenerlin, Principal,
Zula Culico and Inez Ray, teachers.

Ball Game Goes

To Paint Lick.

Burgin, Ky., July 4th. The Paint Lick Blues defeated the locals today by the score of 6 to 2, before possibly the largest crowd that ever witnessed a ball game in Burgin. The crowd being estimated at two thousand people.

Promised at 3 o'clock the two ball clubs stepped out on the greenward of Burgin ball field, and by good hitting and base running the visitors piled up 3 runs in the first half.

Tatums pitching and G. Duersons batting had a lot to do with taming the Burginites, but generally the Paint Lick team played just a shade the best ball and wasn't out of luck either.

These teams will meet at an early date at Paint Lick, to settle their differences. WATCH for the date, as you will be sure of a good game of ball. Don't miss it.

Returns Home.

It is gratifying news to everyone to learn that Mr. T. L. Yantis has returned to his home after a successful operation at the St. Joseph Infirmary in Lexington several weeks ago. No more popular man or better citizen lives in Garrard than Mr. Yantis and all his friends wish for him renewed health and vigor for many years to come.

Public Speaking

Hon. King Swape will address the citizens of Lancaster and Garrard county, at Court House in Lancaster, Saturday July 12th at 2 o'clock. Ladies and gentlemen invited.

3-21.

Swat That Fly.

El Vampiro powder will do the work while you sleep. 10 cents a box.

Stormes Drug Store.

GREAT MYSTERY

Surrounds Robbery Of
Patterson Residence
Last Friday After-

noon.

Great excitement prevailed over the city last Friday afternoon when it became known that the residence of Mr. and Mrs. G. M. Patterson had been entered by thieves and about \$1,000 in money and checks stolen. The robbery occurred between the hours of four and six thirty o'clock and while the family were out for an auto drive, the house being unoccupied at the time.

Returning from the depot with the express and freight receipts of the day in large tin box, about four o'clock in the afternoon, Mr. Patterson, who is our head express and L. and N. agent, deposited the box and contents under the sofa of his parlor, where he thought it would be safe from all intruders, and together with his family went out for a drive returning about six thirty or two and a half hours later. Upon entering the home they were shocked to learn that the house was torn "topsy turvy" and an immediate investigation showed that the house had been entered and the contents of the box stolen. Further investigation showed that the thief had entered the rear door, cutting the screen, unhooking it, and then breaking the glass from the transom, climbed over the top and unlocked the kitchen door, this being accomplished, the thief had access to the entire house, and lost no time in finding the box, which he evidently knew had been left there by Mr. Patterson only an hour before.

Bloodhounds were summoned from Lexington, but did not arrive until nearly ten o'clock, some six hours after the theft. Owing to the oil on the streets, the dogs were unable to strike the trail and no arrests have been made, although we are informed that one or two are under suspicion and warrants for their arrest may be issued soon.

The loss is a heavy one and but for the books being closed on July 4th, the money would have been deposited. The public is worked to a high pitch and some startling developments may be brought out in the next few days.

Dempsey Wins In
Three Rounds.

William Harrison Dempsey is the new heavyweight boxing champion of the world. He acquired his title by whipping Jess Willard in three rounds. The fight was a brutal one, little science being used except in the first part of the first round. The men simply stood toe to toe and slugged.

At the end of the third round Willard was dazed from the beating he had taken and bloody, bruised and one eye closed, his seconds threw up the sponge.

Newman Gains

In Garrard.

Friends of Senator John W. Newman, candidate for the Democratic nomination for Commissioner of Agriculture, are looking well after his fence in Garrard and as a result has gained much ground here during the past few weeks.

One reason for this is the fact that he is closely related by marriage to the Rose's, his wife being an own cousin to Dr. B. C. Rose and Mr. R. L. Rose and Mrs. Green Bowling, all prominently connected and rank among our most popular and substantial citizens.

D. A. Thomas, Realtor Agency.

110 ACRES

Garrard County land, gently rolling limestone land, long frontage on main pike. Excellent building sites; right at village, bank, churches, graded schools, and will cut to suit purchasers. This is your opportunity to locate where these advantages are to be had. You can buy this for homes or investments.

D. A. Thomas, Realtor Agency.

A Chance To Fly.

Any man or woman getting as many as three recruits will be given a ride over the city of Lancaster. Ages of the recruits to be between 13 and 35 years. The recruit will also be given a ride just as noon as possible after reporting to camp.

If he can pass the physical tests required to become a crew chief he may have the privilege to learn to fly himself.

JAMES C. WILLSON & CO., 210 S. Fifth, Louisville, Ky.

The Word "Magnet."

The word "magnet" is derived from the name of the city of Magnesia, in Asia Minor, where the properties of the lodestone are said to have been discovered.

The Other Side.

If you want to make yourself solid with other folks don't stop to tell them what wonderful things you have done, but just say, "You fellows have the world beaten for big things!"

BUCKEYE

Dr. G. M. Hendren is very ill at a hospital in Lexington.

Mrs. Permelia Illogie spent Friday with Mrs. W. H. Gulley.

Mrs. Mal Carter has been ill but is improving at this writing.

Miss Louri Brown was the guest of Miss Bernice Broadus recently.

Mr. and Mrs. A. C. Miles were in Nicholasville Sunday for the day.

Mr. and Mrs. Herbert Whittaker and children were in Richmond, Saturday.

Mrs. N. K. Illogie of Lancaster visited her daughter Mrs. Jesse Hill recently.

Mrs. Robert Layton spent Monday with her parents, Mr. and Mrs. L. F. Brown.

Mr. and Mrs. G. W. Ruy entertained a number of relatives at dinner on Sunday.

Mr. W. H. Gulley and Mr. Charlie Graw were in Richmond on business Monday.

Mr. Elgin Overstreet and Mr. Richard of Akron Ohio visited Mr. Thomas Morford recently.

Mr. and Mrs. T. C. Jenkins and Miss Margaret Bradshaw spent Sunday with Mr. and Mrs. T. O. Hill.

The Ladies Missionary Society will meet on Thursday July 17, all members are urged to be present.

Mrs. Fain and Mrs. Overstreet of Jessamine county were guests Saturday of Mrs. S. N. Morford.

Misses Cindy Hell and Susan Etta Allman of Richmond are spending the week with Miss Barbara Gulley.

Rev. D. F. Sebastian will fill his regular appointment here Saturday afternoon and Sunday morning.

Mr. and Mrs. Forrest Curtis and children, Mr. and Mrs. L. L. Sanders and son visited Mr. and Mrs. Hiram Ray and family.

Please call at my office in the Court House and list your taxable property for this year, as the time is fixed and limited by the Law. DO NOT PUT THIS OFF. A. T. SCOTT, Gerrard Co. Tax Commissioner.

BROWN.
On Sunday morning at an early

hour the death angels claimed as their victim, Mrs. Miriam Brown. She had been in ill health for some time. She was the daughter of Mr. and Mrs. Harrison Kay and several years ago she was married to Mr. Joshua Brown who preceded her to the grave seven years ago. She leaves to mourn her loss a father, mother, one sister, one brother and two children, Mrs. Dan Doolin of Bryantsville and Mr. Dan Ray of this place. The deepest sympathy of the community goes out to the loved ones in their hour of trial.

PAINT LICK

Mrs. Eldridge is with her daughter, Mrs. H. L. Francis.

Mr. R. G. Woods made a business trip to Cincinnati last week.

Mr. D. C. Rice was a recent visitor of Dr. and Mrs. H. J. Patrick.

Mr. Henry Conn and children were visitors in Richmond Monday.

Mr. and Mrs. E. F. Hedrick of Lexington were visitors here the past week.

Miss Ethyl Estridge left Tuesday for a stay of several days in Richmond.

Mr. and Mrs. R. E. Anderson of Youngstown Ohio, are visiting relatives here.

Mr. and Mrs. E. F. Rucker of Richmond was the guest of Mrs. L. C. Rucker the past week.

Miss Myrtle Baker of Richmond is the attractive guest of Miss Nora Conn, this week.

Mr. and Mrs. Walker Gayn and children visited relatives in Jessamine county recently.

Mrs. Josephine Buck of Louisville has been the guest of her brother Mr. Fred Hall and family.

Mr. and Mrs. O. C. Rucker and son of Waco were with his mother Mrs. L. C. Rucker on the fourth.

Mrs. Woolie Graves and Miss Eddie Faulkner of Point Leavell were the guests of Mrs. Henry Conn Tuesday.

Mrs. E. Burde has returned to her home in Detroit Mich., after a few days visit with Mrs. L. B. Shepherd.

Mr. Eddie Seal and family and Miss Lutes of Lancaster were the guests of Mr. and Mrs. Thos. Langdon the 4th.

Misses Kathleen Trimble of Somerset and Leona Webb of Berea were weekend guests of the Misses Estridge.

Arnold Foley was called to his home near Corbin last week on account of the serious illness of his brother.

Mrs. D. A. Hervey and son have returned from a pleasant visit to her parents, Mrs. and Mrs. G. A. Brown, near Lancaster.

Misses Nettie and Elizabeth Brown of Perryville, and Miss Addie Brantenburg of Richmond were the guests of Mrs. Sophia Treadway for the week-end.

There was preaching services at New Hope church Saturday evening, also Sunday morning and evening, conducted by Rev. G. L. Herr of Kings Mountain, N. C.

Mr. and Mrs. Jack Davis, L. H. Davis, and Miss Davis were in Berea Monday and Tuesday with their sister, Mrs. John Tudor who is critically ill at the Robinson Hospital.

The many friends of Mrs. John Tudor will regret to learn that she is critically ill at the Robinson Hospital at Berea where she underwent an operation for appendicitis Saturday.

Please call at my office in the Court House and list your taxable property for this year, as the time is fixed and limited by the Law. DO NOT PUT THIS OFF. A. T. SCOTT, Gerrard Co. Tax Commissioner.

Miss Nora Conn celebrated her eleventh birthday Tuesday by entertaining quite a number of little friends. The hours were from 3 to 5. Games were played. Music also added to the enjoyment of the afternoon. Delicious refreshments were served and all present had a most enjoyable time.

Vox Populi, Vox Dei.

This is a very ancient saying and means "The voice of the people is the voice of God." It can be traced back through Latin to Greek. It is found first in a work on morals, by the Greek poet, Herodotus, who lived about the eighth century before Christ.

Equal to the Occasion
"Selling of records in big hotel
hotels" said a truer word the host
ever yet was in a provincial town.

I heard of the hotel late in the evening
1st before I retired. I heard a some
thing under the bed, and saw a couple
of large rats just escaping. I am
once comforted in the office. The
passenger was as serene as a summer
breeze. "I'll fix that all right, sir," he
said. "Booed! Take a cut to room B
at once!"

A Great Man.

A great man is he who chooses the
right in immediate resolution, who re-
sists the worst temptations from with-
in and without, who bears the heaviest
burdens cheerfully, who is easiest in
storms and most fearless under
frowns, whose reliance on truth, on
virtue, on God, is most unfaltering. I
believe this greatness to be most com-
mon among the multitude, whose
names are never heard.—W. E. Chan-
ning.

MICKIE SAYS

"THIS MR. TITEWAD—THIS
IS MICKIE. SAY, MR. TITEWAD,
IF YA GOTTA BORROW THE
PAPER SOMEWHERE, I
WANT YA COME 'ROUND TA
TH' OFFICE 'N DO IT, 'CAUSE WE
DON'T LIKE TA HAVE OUR REGULAR
SUBSCRIBERS BOTHERED: THANK
YA—O BYE!"

BLACK IS A WINNER

It is generally conceded that Governor James D. Black will be an easy winner of the democratic nomination for Governor in the August Primary.

The people are for him. He is the logical candidate. His great service to the ticket in 1915 should not go unrewarded.

He is 10000 votes stronger than any other candidate.

In 1915 he reduced the republican majority in 35 counties in Eastern Kentucky, nearly 5000 votes.

His majority over his opponent was from 4000 to 8000 more than the majority of the other members of the ticket over their respective opponents.

He is the best campaigner, the best debator, the most pleasing speaker, by far, of any candidate offering for Governor on the democratic ticket.

In him, Democracy has an invincible champion.

He's a Winner—Vote For Him and Democratic Success in November!

Lancaster, Ky., July 10, 1919

For Congressman.

We are authorized to announce CHAS. A. HARDIN, of Mercer county, a candidate for Representative in Congress in this, the Eighth Congressional District, subject to the action of the Democratic party.

SOMETHING FOR NOTHING.

We are going to give the idle young men of this community something for nothing—little advice free of charge. But it is good advice, is given in all sincerity, and is for their present as well as for their prospective good.

You tell us you want work, but there is nothing for you to do.

Let us see.

All over this part of the state there are many of the best farms of the country. There are big farms, medium sized farms, and even one-man acreages.

These farms are not producing to their maximum, because the owners can not secure the necessary farm labor. If they could secure the necessary help the acreage would be materially increased each year, and the community would become richer, and better, and more attractive to all people.

You want a job, do you? We'll test your sincerity, for your good and the welfare of the community.

To each young man, out of a job, who is willing to go onto a nearby farm and go to work, we will run in this paper, FREE OR CHARGE, a five line want ad for two weeks. That ad should secure you job within a few days.

There is no more dignified calling than that of tilling the soil. It is the source from which the sustenance of all life springs.

Go onto the farm today. Be industrious. Strive each day to learn something new. Make up your mind that you will begin at the bottom and end at the top.

In ten years, while still young, you will be carrying success around in your pocket.

You will have a comfortable bank account. You may even have a farm of your own. And you will be admired and respected by the whole community.

BUT—

"No farm life for me", you say?

Then this is our prophecy:

In ten years, instead of being successful and admired by your neighbors, you will be still periodically looking for that job. You will be a stranger to the business entrance of a bank. You will be scheming to make both ends meet, possibly at your wits end to support a family on an income not sufficient for one.

The young man who begins life with looking for a soft job generally ends by doing the dirty work which others kick aside.

Two roads are open before you, and no obstacles bar your way. The choice is yours.

SAVING DAYLIGHT.

There is weeping and gnashing of teeth in the large cities at the repeal of the daylight saving law. But they are not narrow minded about it. They admit that the law has been working a hardship to farmers, and that there is plenty of argument in favor of its repeal.

If the farmer sets his clock in contradiction to railroad time, his schedule will get considerably twisted when he is shipping cream and produce to the city consumer.

But the whole trouble is so easily cured that it is difficult to understand why it ever became a vexed question. It is simply a matter of phraseology. We can call any time bed-time, if it does not operate to the soldiers' disadvantage.

It has been charged that the present scheme is to select land lying in desert districts or in swamps, and to impose upon the soldiers the work of reclamation. If this is true, it is an unconscious imposition.

The purpose of such a scheme should be to reward the soldiers—not to enable the nation, or rather, that part of it that did not go to war, to profit at their expense. There are millions of acres of public land ready for cultivation at once. Give that to the discharged veterans; the swamps can be drained and the deserts irrigated at the public cost—not at the expense of the soldiers.

While political interest will center in the primary election

on August 2, which is four weeks from Saturday, and while the 8th district special election for Congress will be a one-sided affair, the former will be the side show and the latter the main event insofar as this district is concerned.

The Attorney General, in a long opinion, written in answer to a letter from Sheriff Roberts, of this county, and with which opinion Sheriffs, County Clerks and others would wisely familiarize themselves, makes it imperative that the special election in the Eighth Congressional district shall be held in the regular voting places and by the regular election officers—that is, the officers who were appointed last fall, and who are as much in duty bound to perform their duties for the year ending next fall as are any other constitutional county or State officers, and who are hereafter to be prosecuted for failure to do so.

The Sheriffs in some of the counties are said to have so far overlooked their duties set forth by the Attorney General, particularly as to the advertising they shall do in each precinct of the county, and in the county papers. These officers, as well as the County Clerks, election commissioners, and election officers, would do well to read the Attorney General's opinion.—Shelby Record.

THE MIDDLE CLASS IN OVERALLS.

The Winnipeg strike has proved a rather interesting fact. It has established the truth that if all the organized manual workers in the country decide to strike, they can do it, and the country will get along without them.

In Winnipeg the military and police had a certain amount of work to do, but it consisted of suppressing hoodlums when the mob got too noisy. The purpose of the strike was to prove that the manual workers could not be dispensed with. And the middle class group (if we can speak of such a class in these days) provided that they could.

The middle class group operated the public utility plants, and cleaned the garbage cans. There was no reason why they shouldn't. They were hardly likely to feel any false pride about it, merely because they were brain-workers. Most of them draw lower salaries than the manual workers, anyway.

There is no cryptic mystery about running a street car or a locomotive. Or calcinating a wall. An amateur may net do these things at first with the same dexterity as a journeyman. But he can soon learn.

If the middle classes took a notion to strike, it would be different. A walkout by the dentists would be rather unpleasant for a plumber with a tooth-ache.

DO IT RIGHT.

The proposal to give public lands to returned soldiers needs a certain amount of watching. It is an excellent one, if it does not operate to the soldiers' disadvantage.

It has been charged that the present scheme is to select land lying in desert districts or in swamps, and to impose upon the soldiers the work of reclamation. If this is true, it is an unconscious imposition.

The purpose of such a scheme should be to reward the soldiers—not to enable the nation, or rather, that part of it that did not go to war, to profit at their expense. There are millions of acres of public land ready for cultivation at once. Give that to the discharged veterans; the swamps can be drained and the deserts irrigated at the public cost—not at the expense of the soldiers.

The loan offered to the soldiers to furnish them with the necessary funds would not discharge the nation's debt, as the advances must be repaid at four per cent. If we are enlisting the grants a free gift, make them so in fact as well as in name.

MORE WORK THAN WORKERS.

Farmers of the northwest are making frantic efforts to secure men in the large cities to work on the farms for \$50 a month with room and board. But it isn't enough to tempt the idlers away from the movie signs and the carabat jazzers. Fifty a month is not much, when the cost of living is considered, but as most of the living is in board and room the argument seems a little weak.

As a matter of fact, \$50 a month with board and room on a farm is far better than the average young man can do even at the high wages in the cities, where everything is paid out in necessary living expenses.

The farm is a good place, and it is getting better every year.

That little devil, Cupid, is always pulling off some new stunt. Eloping by aeroplane is now coming into vogue—doubtless, however, because dad can not hope to overtake them in his tip Lizzie.

These interminable trade disputes raise wages and raise the devil, but they don't raise wheat or increase the factory production.

The man who sits down and waits for fortune to come to him usually finds it knocking at the door of the other fellow.

Some men are blessed with unlimited brains, but have no sense with which to apply them.

"All the world loves a lover" but the girl. She loves ice cream.

Baby's Locomotion

Merrill's father had just been learning to drive his car. The baby was just learning to walk, and she walked sideways, one day Merrill ran into the house and said: "Oh, mamma, come and see the baby skidding!"

Pugnacious Fish

In Starn there are small fresh-water fish so pugnacious that when two of them are placed near each other they at once begin to fight. When the fish is quiet its colors are dull, but when excited it is of a metallic brilliancy.

Experimental

"Dad," inquired a six year boy, "what is a test case?" "A test case, my son," replied his parent, "is a case brought into court to decide whether there is enough in it to justify lawyers in working up more cases of a similar kind."

Status of the Shoes

Kathleen and her mamma had just returned from a shopping trip bringing home a pair of shoes for Kathleen, but only on approval. Upon arriving home Doris, Kathleen's older sister, out of curiosity immediately started to open the package. Kathleen indignantly said: "Doris, you just leave those shoes alone; mamma only brought them home on a fortnight."

Anglo-Saxons

The Angles or Saxons, were a people once located in a part of the world now known as Schleswig-Holstein and who accompanied or immediately followed the Saxons into England. The Angles are believed to have been the more powerful race, for they occupied a larger portion of Britain, and they gave their name to the land, for out of England grew the word England and the Saxons made the word Anglo-Saxon.

Wood in Demand

The unique timber of Turkey and a few other localities—the fine, hard-grained, compact boxwood so much prized for engravings, rubs, etc., is now so scarce that the forest products authority in Wisconsin is seeking American substitutes. Only the Florida boxwood and the wahoo of Arkansas and other parts of the South approach it. Other hardwoods suitable for some of the coarser uses include maple, torchwood, witch hazel, great rhododendron, mountain laurel, thornapple and yellow buckeye.

Cracks At Creation.

War time measures will now take an unmeasured vacation.

If you want to go somewhere for deep quiet and profound rest, try Toledo.

The picnic season has come, and sandwiches and hard boiled eggs are much in favor.

These July days make us feel that "a place in the sun" would be quite appropriate for Germany.

The eyes of the wet interests are now turned to President Wilson as the Great Possible Lad Lifter.

Who dares predict what wonderful things this queer old world may see within the next twenty years?

With universal peace as its avowed object, that league of nations is producing an ungodly amount of scrapings.

We generally think of peace and rest as an ideal combination. Just now the combination seems to be peace and unrest.

"Come on in Water's line" all the dry states have been saying. Now the wet states have their opportunity to form an opinion.

The query, "How's your poor head this morning?" and the term "katzendinner" have become anticipated during the last few days.

The man who has been for several hours assaulting with tussock moth caterpillars on his favorite tree begins to pine for other society.

The man who arranges a fishing tour for his vacation is likely later to conclude that the fish decided to take a vacation at the same time.

The completed but unsigned treat between Germany and Japan at least fulfills the purpose of giving us some very interesting summer reading.

President Wilson was at sea the last week, but probably not more so than he was at different times in Paris during the peace conference.

J. M. Metcalf, Surveyor, 25 years experience. Blue prints furnished. All calls answered promptly. Phone 1835, Union City, 2-13-18.

STRAYED to my place, a bear about one month ago. Owner proved it was not of his and kept it.

Mr. Curtis Sanders of Nicholasville is visiting Mr. Jesse Preston.

Mr. and Mrs. Taylor Bolton spent Sunday with Mr. and Mrs. Luke Preston.

Mr. and Mrs. Dillard Simpson and family spent Sunday with their parents, Mr. and Mrs. Less Hill.

Mr. and Mrs. Everett Duncan and children spent Sunday evening with Mr. and Mrs. Harry McCluah.

Mr. and Mrs. Walker Burdette and children spent Sunday with his parents, Mr. and Mrs. John Napier Sherman.

Mr. and Mrs. L. B. Duncan and little daughter Hattie B., spent Sunday evening with Mr. and Mrs. U. G. Preston.

Mr. and Mrs. Marshall Preston and family, Mr. and Mrs. Elbert Preston and baby and Mr. and Mrs. R. H. and Edith Preston.

Please call at my office in the Court House and list your taxable property for this year, as the time is fixed and limited by the Law. DO NOT PUT THIS OFF.

A. T. SCOTT,
Garrard Co. Tax Commissioner.

Mrs. R. H. Preston and family and Mr. and Mrs. Clayton Preston and family spent Sunday with Mr. and Mrs. E. Lemay and family.

Private Edd Moberley who has been overseas has received his honorable discharge and has returned home his friends are glad to see him back.

GUY.

Miss Bessie Turner is visiting her sister, Mrs. John Black.

Born to Mr. and Mrs. Tom Turner, July 3rd, a little daughter.

Mrs. Tom Marsee spent Monday with Mrs. William Marsee.

Miss Allie Doohm spent the weekend with Miss Ollie Merida.

Mrs. Charlie Yater was the guest Thursday of Mrs. Boyd Turner.

Owing to the dry weather, blackberries are scarce in this vicinity.

Mrs. Ben Smith arrived Sunday to visit her daughter, Mrs. Boyd Turner.

Miss Stella Naylor spent Saturday with Misses Flounie and Savannah Lane.

Misses Maude and Fannie Smith were visitors Sunday of Miss Ollie Merida.

Mr. and Mrs. William Walker were Sunday guests of Mr. and Mrs. Roy Trotter.

Little Miss Ruth White is visiting her grandparents, Mr. and Mrs. John Broaddus, Sr.

Mrs. Williams Lane and daughters were visitors of Mrs. Clarence Holtzman, Thursday.

Mr. Charlie Tuttle of Knob County is visiting his brother, Mrs. and Mrs. Henry Tuttle.

Miss Lida Broaddus and niece, little Miss Ruth Broaddus were visitors Sunday of Mrs. J. L. Yantis.

Miss Lizzie Foley spent Saturday night and Sunday with Mesdames Carrie Davidson and Wm. Sutton.

Mr. and Mrs. C. R. Henry and children of Kirksville were Sunday visitors of Mr. and Mrs. Milton Ward.

Mr. and Mrs. John Broaddus, Sr.,

were guests Wednesday of Mr. and Mrs. Marcus White on the new Danville road.

Mr. and Mrs. Milton Ward and visitors Mr. and Mrs. James Ward of Texas, were recent guests of Mr. and Mrs. William Clark on the Lexington road.

Please call at my office in the Court House and list your taxable property for this year, as the time is fixed and limited by the Law. DO NOT PUT THIS OFF.

A. T. SCOTT,
Garrard Co. Tax Commissioner.

Mr. and Mrs. T. L. Yantis returned home from Lexington Monday. The many friends of Mr. Yantis will be glad to know that he is getting along as well as could be expected.

R. and Mrs. M. H. Turner entered an elegant dining Sunday in honor of their grandson, J. B. Black. Those present were Mr. and Mrs. John Black and son, J. B., Mr. and Mrs. Charlie Yater and Mr. J. P. Foley.

The first principle of money making is money saving.—John Wanamaker.

Above all, teach the children to save. Economy is the sure foundation of all virtues.—Victor Hugo.

Sir John Lubbock:—Economy for the sake of economy is no doubt mean, but economy for the sake of independence is right and manly.

Our philosopher says: The farmer, that drives an auto but hasn't got a silo on his place, just thinks he's up-to-date, that's all.

Our philosopher says: Things are changin' mighty fast an' for the better too. Twenty years ago nobody was afraid of the fly an' they didn't even swat him.

Red Bush Buys Bulls.

Up at Red Bush in the hills of Johnson County, the farmers got together this past spring and organized the "Red Bush Pure Bred Bull Association". This organization, bought a \$200 Shorthorn Bull. Since spring two other Shorthorn bulls have been bought and brought into Johnson County.

Roll Over, Bill, You're Snoring.

Man, say the scientists, is the only living thing that ever sleeps on its back. Perhaps it is from a feeling of pride that some of us make so much noise when indulging in this accomplishment.

SITUATION
IN BRIEFOn Eastern Division Of
The Dixie Highway

CHATTANOOGA, TENN.—The situation in brief on the eastern division of the Dixie Highway between Cincinnati and Knoxville is as follows:

Kenton county, Covington county seat, fourteen miles with six miles of concrete and paved city streets and two additional miles under contract. It is the intention of this county to eventually pave the entire mileage of the Dixie Highway.

Boone County, Walton principal town, eleven and one half miles worn macadam. This was a toll road bought by the county at the instance of the Dixie Highway Association. On account of the fact that the highway only cuts thru one edge of the county it is difficult to secure funds for the construction of the road. However, the county authorities have promised to resurface this road this year.

Grant county, Williamstown, the county seat, 23 miles worn macadam. This county has voted the twenty cent road tax which will give this county funds to improve.

Scott county, Georgetown the county seat, 28 miles. \$100,000 of Federal and county funds will be available for resurfacing the macadam mileage thru the county.

Fayette county, Lexington county seat, 24 miles. Entire mileage is of asphalt macadam has patrol system and funds with which to keep highway in first class condition. County is now building main roads of concrete.

Madison County, Richmond county seat at 32 miles. Graded and surfaced with the exception of 5.5 miles south is now being constructed. A well surfaced road thru the county will be of Beren, which is under contract and provided by fall of this year. A movement was started a year ago for the construction of a new highway.

Rockcastle county, Mt. Vernon the county seat, 32 miles. Of the first 14 miles from the Madison county line to Mt. Vernon, one half is of gravel and 5.5 miles macadam surfacing. One half mile between the gravel and macadam must be graded, with the balance graded. Of the eleven miles from Mt. Vernon to Livingston, 1.5 miles are surfaced, 9 miles graded and .5 miles yet to grade. The convicts are at work south of Mt. Vernon. From Livingston to Rockcastle River a contract has just been let for \$81,000 for grading crossing of Gauley Mountain. No 6.75 miles which will eliminate the provision has been made for the surfacing required to complete the road, other than that Commissioner Wiley has offered the county Federal and State aid. No provision has been made for the bridge across Roundstone creek at Livingston, or for the partnership bridge across Rockcastle River. A movement has been started to get the county court to authorize the issuance of \$100,000 in bonds to provide the funds to meet the Federal and State aid.

Laurel county, London the county seat, 30 miles. Of the 16 miles between the Rockcastle River and London, the first fourteen miles has been graded ready for surfacing and the balance surfaced. From London to Corbin six miles is surfaced, one mile being graded with an additional .2 to be graded followed by seven miles of railroad grade which has been surfaced with limestone. The state highway department thru Commissioner Rodman Wiley has offered this county three fourths of the cost of completing the highway out of Federal and State Aid. A movement is now on foot to start a campaign for a bond issue or to raise funds in some way for the county's one fourth of the cost.

Whitley county, Corbin, Williamsburg, principal towns 31 miles. Of the 18 miles of the highway between Corbin and Williamsburg, two miles will be regraded and the balance resurfaced. This worn pike road built about four years ago. From Williamsburg the next twelve miles has been recently graded and convicts and free labor are now engaged in extending this grade to Jellico. The county expects to complete this difficult grading by fall of this year. A bridge across Clear Fork has been completed but unconnected gaps where forces are working caused a difficult detour. The abutments are up on the second bridge at Saxon and the steel on the ground. A most difficult detour of five miles was necessary to get into Corbin. The state highway department thru Commissioner Wiley has agreed to give sixty per cent of the cost of completing the

highway thru the county out of Federal and State Aid. The plans and specifications will be completed within two weeks.

Campbell county, Tennessee, Jellico, LaFollette and Jackboro principal towns, 27 miles. Of the 16 miles from Jellico to LaFollette all but three miles has been graded with seven miles of this line of the highway surfaced. Gangs are now at work completing the grade. Due to the fact that the approach to a new wooden bridge had not been completed, the tourists were compelled to raise the floor of the bridge sixteen inches in order that the cars with the wind shields removed might pass under. From LaFollette to the Anderson county line, distance of 11 miles, a surfaced highway is now provided. Campbell county has \$140,000 in the bank to meet a like amount of Federal Aid allotted to them by the state highway department of Tennessee to complete the highway thru the county and resurface the old macadam road to the Anderson county line.

Anderson County, Clinton county seat, 19 miles. The highway thru this county has been surfaced. Anderson county has \$25,000 to meet a like amount of state aid to regrade and surface two miles of the highway eliminating a bad hill.

Scott county, Georgetown the county seat, 15 miles. Surfaced in good condition.

Education Bill

Endorsed.

The Smith-Towner Bill (H. R. 7) introduced at the opening of the special session of the Sixty-sixth Congress, by Congressman Towner, of Iowa, at the request of the National Educational Association and the American Federation of Teachers has been endorsed by the Board of Trustees of the Lancaster Graded and High Schools and the teachers of the Garrard-Boyle Institute. The resolutions passed by a unanimous vote of the Board of Trustees on June 2nd follows:

Whereas, The Educational bill (H. R. 7), creating a Federal department of education and providing Federal aid of \$100,000,000 annually for education in the States, introduced by Congressman Towner at the opening of the special session of the Sixty-sixth Congress, will soon be up for passage, and

Whereas, The passage of said bill will further increase the effectiveness of present educational activities of the nation, state, county and local district; therefore

Resolved, That the Board of Trustees of the Lancaster Graded and High Schools on behalf of this community and Kentucky endorse said bill and ask its immediate passage; and be it further

Resolved, That a copy of this resolution be sent to Senator J. C. W.

Beckham, one to Senator A. O. Stanley, and one to Congressman Robison, a member of the House Committee on Education, and a copy given to the Central Record for publication.

Done by unanimous vote of the Board of Trustees of the Lancaster Graded and High School, this 2nd, day of July, 1919.

L. G. Davidson, Secy.

Lancaster, Ky.

The Smith Towner Bill creates a Department of Education and authorizes appropriation for Federal aid to education to the amount of \$100,000,000 annually to be distributed as follows.

1. For removal of illiteracy, \$7,500,000.

2. For education of foreigners, \$7,500,000.

3. For health education, \$20,000,000.

4. For preparation of teachers \$10,000,000.

5. For the equalization of educational opportunities, for partial payment of teachers salaries, for providing better instruction, for extending school terms, etc., \$50,000,000.

This is the greatest step ever undertaken by the Federal government for aiding the states in education. These appropriations will stimulate state and local taxation; but the bill in no way interferes with state autonomy or local control.

The Smith-Towner Bill was endorsed by the Kentucky Press Association last week at its meeting in Louisville.

Mother Goose

CULTIVATION NEEDED IN CORN PRODUCTION

Object is to Promote Early Growth and Development.

Methods Will Vary to Meet Requirements of Planting—Prevent Weeds From Robbing Soil of Moisture and Fertility.

(Prepared by the United States Department of Agriculture)

Approximately 100,000,000 acres of corn in the United States are usually given two or more cultivations. Cultivation is considered essential in the corn production. The general purpose of cultivation is to promote the early growth and later development of the corn plant. The usual type of cultivation is sometimes modified to meet special conditions, such as retarding the vegetative growth of the plant by cutting the corn roots in early cultivation. The kind of cultivation will also vary to some extent to meet the requirements of different methods of planting.

Some of the most successful corn growers begin their cultivation before they plant their crop. They claim that a deep cultivation of the soil at this time is of as much value as later cultivation. It causes the soil to warm more quickly, destroys early weed growth, and incorporates the vegetable matter more thoroughly into the soil.

Corn is cultivated to prevent weeds from robbing the corn of soil moisture and fertility, to put the surface in the best condition to absorb rainfall, to warm the soil by drying its surface quickly, and to save moisture by checking the capillary rise to the soil surface.

Corn should be cultivated often enough to keep down the weeds and to maintain a loose soil mulch until the crop has attained its growth. To satisfy this end a greater number of cultivations will be necessary when rains at intervals of a week or so cause the surface soil to run together and crust. This crust must be broken and

Cultivation is Essential in the Production of Corn.

the soil mulch restored or excessive runoff and evaporation will soon rob the crop of much-needed moisture. Promptness in restoring the soil mulch after each rain is of great importance. This work can be rapidly and less expensively performed by use of double cultivators widened, and by driving nistride each alternate row, so by this practice the mulch is restored in half the time necessary to drive nistride of every row.

Corn should not be cultivated so long as the soil mulch is in good condition and free of weeds. Corn should not be cultivated when the soil turns up in clods, breaking the corn roots and permitting the soil to dry out to a greater depth than it would if not cultivated.

HAY CROPS FOR LIVE STOCK

Many Farmers Unmindful of Necessity of Providing for Fall and Winter Feeding.

(Prepared by the United States Department of Agriculture)

The high price of rough feed emphasizes the necessity of all farmers planting a sufficient acreage of summer forage crops to enable them to provide themselves with hay and other roughages for their live stock during the coming year. With the abundance of pasture available in the springtime farmers oftentimes are unmindful of the necessity of providing for that period during the fall when pasture will be dry, or during the winter when there will be no feed available.

The county agents should be consulted with reference to the availability of seed. Where outside purchases have to be made the order should be placed at once, so that the seed may be on hand to sow when the soil is in good condition and the season is not too far advanced.

Among the several summer hay crops for the Southwest sorghum or Sudang grass are undoubtedly in most favor. In the southeastern territory sorghum and cowpeas, planted any time before the first of July, will mature in great abundance of good quality rough feed for miles or cattle. The county agents should be consulted with reference to best crops for local conditions, method of planting and quantity of seed per acre to be used in different localities.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakening of the kidneys and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment, which completely restores health, taking a capsule of 100 mg. daily. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the weakness and disability due to advanced years. It is a simple, painless, time honored remedy and needs no introduction. GOLD MEDAL Haarlem Oil is included in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small spoonful of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment, which completely restores health, taking a capsule of 100 mg. daily. GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand, in sealed packages.

EUROPEAN CORN BORER MOST DANGEROUS
PLANT PEST IN EASTERN MASSACHUSETTS

Borers Do Most Damage by Their Work in Stalks and Ears.

Prepared by the United States Department of Agriculture.

The European corn borer threatens the future of America's greatest crop.

This pest plies his trade with the industry of a borer to the extent that he is the most dangerous plant pest that has yet immigrated from foreign fields to the corn lands of Uncle Sam. The larvae, or borers, hungry as half-starved rats, tunnel through all parts of the corn plant excepting the roots, and destroy or severely injure the ears and stalks. That their diet may have variety they also attack celery, Swiss chard, beans, beets, spinach, onions, potatoes, tomatoes, turnips, as well as dahlia, chrysanthemums, gladiolus, geraniums, timothy, other grasses and weeds. Two generations occur each year, so that multiplication and spread are rapid, especially as few are destroyed by natural enemies.

Specialists of the United States department of agriculture, in Farmers' Bulletin 1006, describe the danger to American corn by the presence of the European corn borer in eastern Massachusetts. They surmise that the pest was introduced in raw hemp imported from Europe for use in Massachusetts cordage factories, or possibly in lobes of broom corn imported by factories in central New York. There are 35 towns in Massachusetts, including an area of about 320 square miles, infested with the insect, which has been confined to the limits of its original infection except for an outbreak discovered in January in the vicinity of Schenectady, N. Y., covering an area of approximately 400 square miles.

How the Borer Works.

The larvae, or borers, tunnel through all parts of the corn plant except the fibrous roots. They cause the most serious damage by their work in the stalks and ears, which they partially or totally destroy. Generally they enter the stalk at its upper end and near the base of the tassel, and at first tunnel upward. This damage so weakens the tassel stalk that it breaks over before the tassel matures, resulting in loss of pollen and the lack of normal grain formation on the ears. These broken tassels, with extrusions of saw-dust-like material at the breaks, are the most conspicuous signs of infestation in the field. Field counts in fully infested areas have shown as many as 60 per cent of the tassels broken over in this manner. After destroying the tassel the borers tunnel downward through the stalk, gradually increasing the size of their tunnels as they develop. Instead of entering the stalk near the tassel many of the borers enter between the leaf sheath and stalk at a point lower down, and tunnel upward or downward according to their individual preferences. When several or many borers are working within the same stalk it soon is reduced to a mere shell. This injury cuts off the supply of nutrition from the developing ear and greatly weakens the stalk, which eventually breaks over. Some of the partly grown borers leave the stalk and enter the ears through the husks, and also through the stem and cob. Here they feed upon the immature grain and tunnel through all parts of the cob.

Eggs Laid in Summer.

In July and August many of the moths deposit their eggs directly upon the newly developed ears of late corn. The resulting crop of borers feed at first upon the silk and then enter the ears directly, where they feed voraciously upon the grain and cob. As many as 15 full-grown borers, each about an inch long, have been found feeding upon and within a single ear of corn. This extensive injury to the ear results in its complete destruction. Some idea of this damage may be gained from the fact that 75 plants, comprising 17 hills, were selected at random from a badly infested Massachusetts corn field, and all the borers found therein were carefully removed and counted. Forty-six borers, on an average, were found in each plant, while one of the plants contained 117 borers. One hill consisting of four plants contained 301 borers. At the average rate of 40 borers a plant, an acre of corn could contain over a million of these pests. The borers enter and damage other crops mentioned previously in the same way as described for corn, but usually to a less serious degree. In addition to the actual loss caused by the work of the borers, there is also the possibility that some of these products, when shipped to market, may contain the insect and thus serve as carriers of the pest to new localities.

PROFITABLE PERIOD OF HEN

Unless Fowl Is Especially Good Breeder She Should Be Disposed of When Three Years Old.

The hen's greatest profit-producing period is the first and second years, and unless a hen is an especially good breeder she should be disposed of at the end of her second laying season and before starting to molt.

TOMATO AND POTATO CROPS

Former Has Certain Qualities That Make It One of Most Desirable Garden Plants.

The tomato is closely related to the potato, and while the actual food value of the tomato is not so great as that of the potato, it has certain qualities that make it one of the most desirable of our garden crops.

Two Fine Garrard County Farms

AT AUCTION

Tuesday Morning, 10 o'clock

July 15th, '19

162 Acres For Floyd Curtis

85 Acres For J. C. Williams

In the famous "Camp Dick Robinson", known every where as most desirable land.

Travelers through this section can hardly keep the commandment "Thou shalt not covet." Both farms front on the Mt. Hebron Pike, the Curtis farm just 1-2 miles from Lancaster and Lexington pike, 1-2 miles from Graded School, 1 mile from Bryantsville, that growing village with its stores, churches, bank, schools, etc. The Williams farm is just 1-2 miles farther on the Mt. Hebron Pike.

Either farm a DANDY home, in an ideal location.

No other farms in this neighborhood for sale. They just won't price. 162 acre tract will be sold in three tracts; 85 acres with most improvements, 50 acres with tenant house and tobacco barn. 27 acres, no improvement. Purchaser of any tract will have the chance to buy either one or both of other tracts, each tract with broad frontage on pike.

IMPROVEMENTS:—8 room dwelling, 2 tenant houses, one large stock barn, the best in the County with water and fully equipped for feeding 100 cattle, large box stalls; one new tobacco barn, all necessary out buildings.

The 85 acre Williams farm will be sold in two tracts, one tract of 45 acres with improvements, one tract of 40 acres, no improvements. The improvements consists of new 5 room bungalow, 2 porches, good cistern, 4 acre tobacco barn, 40 acres in corn, 4 acres tobacco, 20 acres in meadow, balance in grass. Splendid frontage on Mt. Hebron pike; beautiful yard. A nice place to live.

The 162 acres has 40 acres in corn, 10 acres in tobacco, 112 acres in grass. Both farms are well watered. Curtis farm has a fine orchard, beautiful yard with large shade trees right on the pike.

The farms are a good "Buy" for two families wanting to locate in same neighborhood close to splendid graded school and with other advantages.

These farms will be sold for the High Dollar.

I "turn down" Auction Sale propositions every few days. I only contract for those I know will appeal to the buyers, therefore, I always sell what I offer. The purchaser gets the benefit of my judgment as to values. Attend my sales and see how they are conducted. We want to show you the land before day of sale. Get in touch with us.

POSSESSION OF BOTH FARMSON JANUARY 1, 1919. TERMS EASY.

DINNER ON THE GROUNDS.

Will also sell a lot of personal property as follows;

1 sorrel mare, 9 years old; 1 three year old Peavine filly; 1 two year old horse colt; 1 yearling filly, 1 yearling horse colt; 1 red shorthorn cow and calf at foot; 2 year old red cow, calf at foot; 1 red cow, fresh in the fall; 2 two year old steers; 1 roan shorthorn bull; 7 year old jersey cow and calf, 5 year old jersey cow and calf; 5 extra buck lambs and a lot of other stock and household and kitchen furniture.

This will be an all day sale. Come early and spend the day with us.

Follow my sales, I will make you money. At each one of my auction sales the purchaser has either sold at a profit or been offered a profit within a short time.

SWINEBROAD, The Real Estate Man

W. E. MOSS, Advertising Manager.

LANCASTER, KENTUCKY.

Look up the advertisements for sales on the 16th, 21st, 22nd and 23rd of July. Also farms for sale privately.

Found Road to Happiness.

I have been a great deal happier since I have given up thinking about what is easy and pleasant, and being discontented because I could not have my own will.—George Eliot.

Musings of Martha.
If th' weddin' ceremony included, besides "love, honor and obey," "cook his meals, wash his clothes, darn his socks, an' sew on his buttons," there'd be fewer lusty marriages.

FIDO, JR.

By MARGARET L. AHERN

(Copyright, 1919, by the McClure News-Paper Syndicate.)

For the third consecutive day Marjorie Hill spent 15 minutes of her noon hour gazing covetously in the store window. And for the third time Lieutenant Dan Taylor, lunching alone at his club across the street, watched her with growing curiosity.

Then, the present possessor of two gold service stripes and a wound stripe, was feeling rather bored after his strenuous activities of the past year. This state of affairs was possibly due to the fact that there had been no girl waiting for him "over here." His interest was aroused now for the first time since his return home.

"If it was a fur coat she was looking at so earnestly," he soliloquized, "or a platinum bracelet watch, or a rose-colored evening gown—I could understand it. But it's a bird and animal store. I wonder if it's a parrot or a canary she wants?"

While he watched the girl went inside the store. Dan hastily paid his meal check and hurried across the street. He, in turn, stared in the window at the miscellaneous assortment of livestock.

On one side some tiny white mice were huddled in a squirming heap in a cage. "No girl in her right mind would even look at those things," was the Lieutenant's sarcastic comment.

On the other side of the window two white, curly-haired dogs frisked around. "Inane pups," muttered Dan. "She doesn't look like the kind of a girl who would carry one of those toy dogs around."

In the center of the window was an iron cage, and presently its occupant—a small but very fat Boston terrier—was thrust in unceremoniously. The girl inside the store leaned over to play with him for a moment, and Dan had a delightful glimpse of rosy cheeks and brown eyes. When she left Dan followed her through the noonday crowd until she entered a large bank building.

A few minutes later the president of the bank was shaking hands joyfully with the Lieutenant. "It surely does make your old uncle glad to see you again, Danny," he said, "and if there's anything at all I can do for you—"

His offer was accepted with suspicious alacrity. Dan explained glibly that he wanted to look over the contents of his safety deposit box, and since his right arm was still lame, possibly he could have the assistance of one of the clerks. For answer his uncle pressed a button beside his desk. A young woman appeared almost immediately. Dan, maneuvering to a position back of her, frantically signaled to his uncle. The latter, hiding a smile, dismissed his efficient employee with some casual instructions, and asked her to send Miss Hill to him.

Miss Hill proved to be the girl of the bird store. From her demure blush as she acknowledged the introduction to the eager Lieutenant, he suspected that she recognized him. It was arranged that she should work with Dan that afternoon at least; but he made haste to assure his uncle that the clipping of innumerable coupons would probably necessitate another full day's work.

During the afternoon a minimum of business was transacted by Dan and his winging secretary. However he found time to tell her of the big kennels at his country place, and of his favorite pet, the ugly-looking bulldog named "Old Ironsides." "He'll try to—I mean, he could—eat that little chap in the birdstore in one mouthful," said Dan.

And Marjorie confided to him her longing to possess the "little chap." She told him how she had figured that five dollars was a sufficient sum for such a tiny puppy, and how she had been saving up a "pig fund"; and then of her disappointment at learning that the small dog hadn't most distinguished and high-class canine family tree—being a direct descendant of Kingmaster I—and his present owners refused to part with him for less than twenty-five dollars.

Needless to say, the puppy of unmeasurable ancestry disappeared from the store window the next day. When the president of the bank returned after lunch that noon, he found an unexpected visitor tied to his desk. A note from Dan explained the situation. It read as follows: "I am paying my charming assistant, not in coin of the realm but in the original way you see hitched to your desk. Don't dare remove him. He will be called for at 5 o'clock."

Dan's uncle stowed the pup with a quizzical smile. Fortunately, he liked dogs, too. "I suppose," he remarked thoughtfully, "that you have to be fed at more or less frequent intervals, like all infants. Although—parson my rudeness, old man—from the contour of your small anatomy you don't look as though you had room for a drop more." An excited office boy was presently sent out to procure some milk for the puppy.

Then, still holding Dan's note, his uncle sighed and addressed the pup again. "Perhaps you understand, Fido, junior"—vibrant wagging of a diminutive tail testified that Fido, junior, understood perfectly. "You have been the cause of my nephew coming in here and taking my best stenographer."

Italy, in her new budget, is posing to tax bachelors.

Satisfy!

—what the deuce does that mean?

It means that NEW thing in a cigarette, that does for your smoke-hunger exactly what a drink of cold water does for your thirst!

To satisfy, a cigarette must do more than please the taste—it must "touch the smoke-spot."

That's what Chesterfields do. They let you know you are smoking—they Satisfy.

And here's why—Chesterfields have body. The finer, silkier leaves of TURKISH have been properly blended with several varieties of the best DOMESTIC tobaccos, famous for their full-bodied flavor.

Satisfy is something that no cigarette, except Chesterfields, can give you—regardless of price. Because no cigarette maker can copy the Chesterfield blend.

Say "Chesterfield" to your dealer.

Liggett & Myers Co.

Chesterfield

CIGARETTES

—of Turkish and Domestic tobaccos—blended

This is the package with the moisture-proof jacket that keeps Chesterfield's original freshness and flavor intact.

They Satisfy!

Curiosities of the Calendar.

It will be found that January always begins on the same day of the week as October, and the same is true of April and July, September and December. Again February, March and November also begin on the same day of the week. This, however, is only true in years of 365 days.

Carrying Cocoa to the Coast.

An interesting spectacle in the African Gold Coast country is the transport of cocoa, the bulk of the product being carried by porters to the railway. Sometimes the roadways as far as the eye can see are one long line of cocoa bags on the heads of hundreds of carriers.

Astonished Daddy.

Jane is having some difficulty in settling upon the proper title for her father. The other day she was playing with one of his collars when she tore it. Just then she heard him coming upstairs, and rushing to the top step called in distressful tones: "Oh daddy, I has tore my bubble's collar!"

FARM for SALE

Privately

I am in position to offer you privately one of the very best farms in Madison County, located 8 miles from Richmond on good pike, good new six room dwelling, new stock and tobacco barns, housing room for 25 acres tobacco and land now cultivated to fill, 90 acres corn, 30 acres meadow, about 300 acres excellent blue grass, with cattle in the field and everything in fine state of cultivation.

Will price this one for immediate possession or will sell for January 1st, delivery.

If one or two good men want to buy a farm that will make money and one that is now ready to plow, call or write, or come to see me and I will show you something worth while.

R. G. WOODS

PAINT LICK, KENTUCKY.

TREND SEEMS TO BE TOWARD MOTORIZED FARMS, ELIMINATING ALL HORSE POWER

Plowing With a Small Tractor.

Offered by the United States Department of Agriculture.

Admission of tractors for agricultural use has grown greatly in popularity for ten years, but it has still open to manufacturers in the small farmer's business which can be gained only by the introduction of purpose tractors that can be used conveniently on farms of 10 to 1000 acres.

Prior to 1907 practically all power plowing was done by steam. If there was any machine in use at that time employing an internal combustion engine as its source of power, the case apparently has never been a matter of record. Steam plowing has been in vogue for a number of years, especially in regions such as the Dakotas, Montana, and the Canadian provinces of the Northwest. Here were found banana farms consisting of thousands of acres, one crop of wheat sometimes paying for the entire farm. These large tracts stretching away for miles in a level and unbroken plain, offered conditions which were suitable for these enormous steam outfitts weighing many tons.

Several factors had a bearing on the elimination of steam as a source of power for plowing and the substitution of the internal combustion engine.

The fuel was bulky for the power transmitted and the storage space on the engine was small. Several men were required. The steam engine as then constructed could not stand the constant strain and rough use necessary in plowing. It was necessary to spend considerable time in care and repair, just as is required by the rail road locomotive after a five or six hour run.

How Use of Gas Engine Began.

There was a demand by operators for a machine which would do away with these disadvantages. Interest was shown by various manufacturers and their attention was directed toward the development of a machine using the internal combustion engine.

Apparently 1907 was the first year that a gas tractor advertised as a source of power was placed on the market. This machine employed a double-cylinder engine, using gasoline for power and oil for cooling. It had a rating of 22 nominal and 40 net-horse power and was capable of pulling six to eight 12-inch plows, depending on the soil. The weight was practically the same as that of the steam engine, about nine and one-half tons. While operators were not satisfied with the steam tractors on the market, there was then considerable prejudice against the gas tractor, so that machines were built which looked as much like a steam engine as possible. Perhaps this fact, to some extent, tended to overcome the prejudice and make for the popularity of the outfit.

In 1908 so much interest was manifested throughout the Northwest in the gas tractor that it was decided to hold a motor competition in connection with the industrial exhibition at Winnipeg, Canada. During the week of July 17, 1908, this contest was held, the first of its kind on the American continent. Machines were exhibited by five companies; two other companies entered, but withdrew. The rules of the contest limited the weight to seven and one-half tons to pull out steam rigs. This rule barred one gas tractor, as it weighed nine and one-half tons.

Early Tests Unsatisfactory.

The tests upon which that award was based consisted of hauling, plowing and maniplation. Some of the soil conditions were not ideal, and a bad impression was given in the hauling tests. The barreled machine put on a private demonstration and made an excellent showing, using kerosene, except to warm up the motor at the beginning. The significance of this contest was that the weak points were shown and that it started the development of practical motors for small farms.

In 1909 a similar test was held at Winnipeg and six companies demonstrated machines. The contest was divided into four classes: (a) internal combustion 20 horsepower and under, (b) 20-30 horsepower, (c) over 30 horsepower, and (d) steam engines. This contest created much interest in manufacturing circles, and many manufacturers were present to obtain useful information, which showed that they were alive to the possibilities attending the development of a successful tractor.

To Winnipeg must go the honor of starting an idea which has done a great deal to develop the tractor industry rapidly. These tests were the forerunners of others in various sections of the United States and Canada.

that have given farmers the opportunity of seeing these machines at work and judging on the merits of the individual outfit.

Tractor Shows Develop.

In 1910 a tractor was exhibited in the West Fair show. It was intended to make the exhibition a permanent one, but failure to find sufficient interest for plowing caused the idea to be abandoned. Not until 1912 was an attempt made to hold a large scale attempt in the United States. Then a demonstration was held at Fremont, Neb., in which 27 manufacturers exhibited 30 tractors. From this time on a national tractor demonstration has been held each summer, with an ever-increasing number of manufacturers exhibiting until at the last show, held in Salt Lake City, in 1918, over 300 machines were entered, and 53 manufacturers were represented. A winter meeting is held each year at which manufacturers of tractors and accessories exhibit. This show has been held in Kansas City, Mo., for the past four years. Various local shows are put on each summer, and since 1916 these have continued throughout the summer, beginning in Texas and continuing northward. In March, 1919, the first large demonstration of the year was held in the South at Marion, Ga., which shows that the South is alive to the possibilities of tractor farming.

The following production figures show the enormous growth of the tractor industry in the comparatively short time it has been in existence.

U.S.A. MACHINERY—FARM POWER	
MARCH 15, 1915	11,600

100	100	100	100	100	100

MANUFACTURERS' ESTIMATED PRODUCTION

1919 31,000

As previously stated, there was estimated to be between 45 and 50 firms or individuals making or attempting to make tractors in 1909. The office of farm management, United States department of agriculture, has always kept in close touch with the tractor industry, and the news show that in 1909 there were 102 firms actively engaged in manufacturing tractors and 102 firms and individuals planning to begin in the near future.

Character of Tractor Changed. In the beginning the tractor was constructed to simulate the steam engine in appearance. As time passed and prejudice disappeared, many refinements took place until today it is a compact, well-built machine capable of performing a multitude of operations. The first tractors were heavy, rough affairs, capable of pulling eight, ten, or more bottoms. It was soon recognized that if the industry were to prosper the machine would have to be built which would be practical for ordinary farms. The result was the small machines came on the market, built to pull two and three plows. This type of tractor appealed to the small farmer.

The present day more two and three plow machines built than of all other sizes combined. There are, however, a number of companies still marketing a large-size tractor, which is still used on the big farms of the Northwest and the Pacific coast.

How Tractor Was Transformed. From the rough machines of 1909 and 1910 with single cylinders, chain drive, cast gears, excessive weight, exposed working parts, and poor accessibility have been developed machines of light weight with inclosed working parts, friction and various gear drives, electric fixtures, radiator cooling systems, cut and hardened gears, multiple cylinders, air cleaners, kerosene carburetors, one-man control, and many other necessities—all this at a price of one-half to one-fourth of the early machines.

Owing to varying conditions, there are two types of machine on the market at present—the crawler and the wheeled type. The purpose of the crawler is to prevent tiring down on soft ground. The same principle was employed by tanks in the late war. The wheeled tractors are more numerous and employ various devices to obtain traction such as lugs, grouters, spikes, cleats and extension rims. Again, some wheels have a device giving a stepping arrangement, as in the P-T wheel, which was developed by two Italian army engineers. A few tractors employ both the crawler and the wheeled type.

As yet the tractor industry is comparatively young, and what its ultimate effect on farming will be it is impossible to say.

PRINCE ALBERT

LAY your smoketaste flush up against a listening post—and you'll get the Prince Albert call, all right! You'll hunt a jimmy pipe so quick and get so much tobacco joy out of every puff you'll wish you had been born twins! For, Prince Albert puts over a turn new to every man fond of a pipe or a home made cigarette. It wins your glad hand completely. *That's because it has the quality!*

And, right behind this quality flavor and quality fragrance is Prince Albert's freedom from bite and parch which is cut out by our exclusive patented process. We tell you to smoke your fill at any clip—jimmy pipe or makin's cigarette—without a comeback!

Toppy red bags, tidy red tins, handsome pound and half pound tin humidores—and—that clever, practical pound crystal glass humidor with sponge moisture top that keeps the tobacco in such perfect condition.

Labor Endorses

Thrift Movement.

Strong Labor Organization at Hannibal Adupts Strong Resolution Urging Subordinate Bodies To Get Behind Campaign.

Labor in Hannibal, Mo., is solidly behind the War Savings Campaign. The Trades and Labor Assembly, which is made up of the delegates from each labor union in Hannibal and Marion County, last week were on formal record as endorsing the movement by the adoption of resolutions.

Not only this but by vote of the Assembly a letter of introduction, containing a copy of the resolutions, was given J. R. Blackwood and O. G. Sandor, state organizers, appointed by Federal Director Wilson of St. Louis, for presentation to the individual unions.

The organizers are this week perfecting working organizations in each union, and the interest in the movement is widespread. Not only are the members of the unions responding, but the members of their families are filling out pledge cards and practicing the doctrine of Thrift.

Daily Thought.
Good company and good discipline are the key-sounds of victory.

FARM STOCK

DO NOT NEGLECT HERD BOAR

Management is important part in raising strong, healthy pigs—Deserves best care.

Prepared by the United States Department of Agriculture.

The management of the boar is a very important part in the raising of strong, healthy pigs, and one which is sometimes neglected. He should be the most valuable animal in the whole herd, and as such deserves the best of attention. The boar should be purchased from a breeder of purebred pigs when between eight months and one year of age. Many breeders, however, purchase a boar when a weanling pig, but to be successful in this choice requires a wide experience and sound judgment. Aged boars which have proved their worth can sometimes be purchased at a reasonable price. It is much safer for an inexperienced breeder to buy an old, inactive boar than a young, virile boar. If possible, the farmer should visit the herd where the boar was raised and note the conditions under which he was bred. At any rate, it is always possible to obtain from the breeder notes on the health and kind and amount of feeds used, so as to serve as an index to his subsequent treatment.

Upon arriving at the farm the boar should be isolated as soon as possible and placed in quarantine to guard against the introduction of disease into the herd. If he is lousy it is well to treat this condition at once. His feed should be a continuation of that to which he has been accustomed, feeding rather lightly the first few days until he recovers from the strain of shipping and becomes accustomed to his new surroundings. If it is not feasible to continue feeding as previously indicated, the change to a more convenient ration should be made very gradually in order not to distract the appetite or health of the

animal. As a rule, a pig 8 to 12 months old will be in proper breeding condition when received unless he has been very heavily overfed. In purchasing an older boar, particularly one which has been in the show circuit, it is often necessary to reduce his condition before attempting to breed. With some animals the breeding power is permanently impaired by too high condition at some time in their life. The boar should be well fed but not fat, as a too high condition makes him inactive, a slow breeder, and a rather uncertain sire.

After the breeding season the boar should not be fed so heavily, and should have a wider ration, that is, one containing less of the protein concentrates and relatively more corn. The ration at this time is practically the same as that fed the brood sow when she is not producing a litter of pigs. He should have the run of a pasture a quarter of an acre in area in connection with his paddock. Here he can exercise and obtain much of his feed from the forage, or in the winter when the forage is consumed he may be fed on alfalfa or clover hay in connection with the grain ration. Keep the boar healthy, give him exercise, plenty of rough feeds, and keep him in condition by varying his supply of grain. Under such conditions little trouble will be experienced in getting a normal boar to produce large litters of strong, healthy pigs.

PIG CLUB MEMBERS PROSPER

Some have been at work long enough to have porkers for sale and make money.

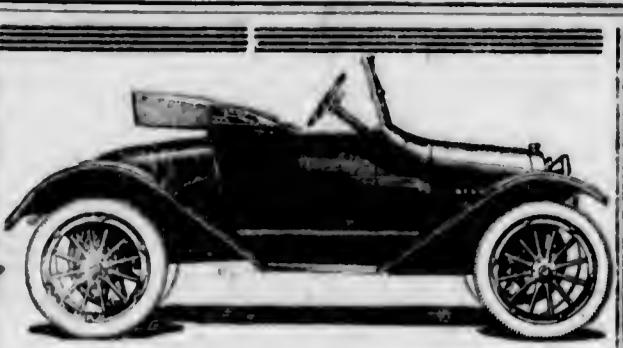

Prepared by the United States Department of Agriculture.

Pig club members in Florida are working up an industry among themselves. Some of the members who have been in club work long enough to have some pigs for sale are disposing of their stock to other club members. One club boy has sold \$100 worth of pigs to club members this year. Another, who joined the pig club two years ago, is now furnishing pigs to other members, and says he is glad he went into the club work, and believes that every boy and girl who can do so should join.

ATTENTION TO BROOD SOWS

After weaning her pigs she should be kept on pasture and fed a gaining grain ration.

The sow having weaned her pigs, should be kept on pasture and fed a gaining grain ration to build up her system and flesh for re-breeding, and provide nourishment for the oncoming fall litter.

PAINT LICK GARAGE COMPANY

Paint Lick, Kentucky.

Endurance.

Endurance, not fleetness, wins the race. Never give up. Keep pushing away even though everything looks hopeless. Many a man has failed in his fortune and fame because he lost courage just as he was within reach of them. What you desire may be only one step ahead. Keep going.

Art Development.

Ants have developed nothing re-

motely a scalding insecticide or insect. Many unnecessary conclusions have been drawn from comparing men (undeveloped female) and workers with the hampered women of modern industry. A comparison with child labor would be truer. For ant workers are always "stronger"—formicinated creatures who have no economic opportunity to grow up—who are forced by family necessity to venture out for food before they reach full growth.

Entire "Perspective."

We say of the "perspective" that the "perspective" is goal-meaning that we can see far ahead, beyond the apparent boundaries to imminent beauties still far off in the distance. Many people lack this perspective; they see only the trifles and shallow winter in the foreground and stopping toibble their feet in the first pleasant invitation to ease and comfort; they lose the eye and one of the deep pools and terraces further on, content to stay at the first swing, having even forgotten that they once had a great vision of castles of incipitants.

Umbrella Improvement.

It is the little things which make for perfection, we are told. An invention for perfected a device which yesterday shows a taste for perfection. No one is unfamiliar with the strip of paper which is used simply to wind up closed umbrellas. When the umbrella is open this piece of tape tangles and pendulums in a way that undoubtedly is offensive to the dignity of some. The inventor in question has made an invention which provides means of stowing away the pendant into the interior of the opened umbrella by means of a snapping device.

Daily Tip.
Write to the manager and let him clean office.

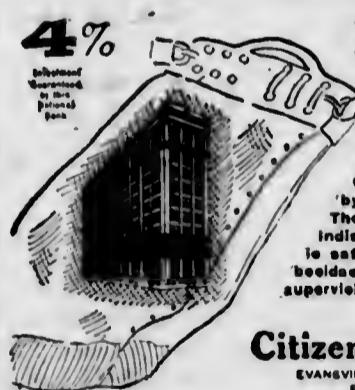

Cousin Bill Says:
"When a man thinks he has left his job at home and takes it out of his pocket to see if he has time to go back for it, I should call that man absent-minded."

Brudder Sam
"Ah ain't passin' away and with you come to see if he has time to go back for it, I should call that man absent-minded."

Napkins.
Table napkins were in use long before some of the other accessories which we consider indispensable today. Before forks came to be known, men had to use their fingers in passing their food; hence the ancient custom of frequently passing the fork of either end of its accompanying napkin for wiping the hands. It may seem incongruous that forks were not in use until the seventeenth century.

Old Name for February.
The old Britons gave the nickname "February" to February, not because it is particularly wet month, the average rainfall being the least of any month in the year, but because the melting snow on the hills causes the rivers and dykes to overflow. When there is a superabundance of snow and rain in February there is too much of what would be a good thing in moderation, and floods where they are least wanted.

Dominoes for the Blind.
Dominoes for the blind are rather ingenious. Recognizing the need of something that would give a blind person as the fingers of the hand passed back and forth reading the numbers on the face of the dominoes, the inventor has given us a set of interlocking pieces. The mortise joints hold them together no matter how much they are brushed around. The number on each piece is indicated by the raised heads of brass tacks easily read by the touch.

DEVONIA
Giving
Red Blooded Men
a Chance

High Blood Pressure is preeminently the disease of hustling red blooded American Business Men. Too close confinement to business, working too hard—that's the way he usually looks at his own case. He is partly right. But the real cause lies further back. In his rush to succeed in business, he has neglected his digestive system. "Out to lunch; back in ten minutes," has too frequently been his programme. Now he is paying the penalty, not of work, but of self-neglect. Most cases of High Blood Pressure, physicians tell us, have their origin in long neglected constipation. Devonia, the American Medicinal Mineral Water, is preeminently the water for red-blooded, high-pressure American Business Men suffering from High Blood Pressure. It has been so systematically successful in these cases that many physicians have come to rely almost wholly upon it. Their records show patients restored to sound health. Men rejected for insurance have been made insurable. It eliminates the food waste that has been poisoning him. Yet, unlike purgatives, oils and pills, it is not a drastic cathartic. Easy in action but thorough, it induces regularity, the first step toward recovery. It supplies the stimulation that his business concentration has prevented Nature from supplying. Devonia comes to you just as it flows from its natural source a thousand feet underground, without alteration or condensation in any way. A tablespoonful in a glass of water is the usual dose. In a quart bottle there are 64 average doses, making the cost about one cent and a half each. You may be on the road to High Blood Pressure. Be warned now and send for our booklet, "Giving Red Blooded Men a Chance." It will show you how to know yourself and tell you what Devonia has done for others.

Take a
Tablespoonful
of Devonia to
a Glassful of
water.

For sale by most drug stores in the city.

TO PROTECT LOCUST TREES FROM BORERS

Plant in Thick Stands to Produce Shaded Condition.

With Underbrush About Trunks of Trees Injury by Insects Is Less—Protection Is Needed for Very Short Period.

(Prepared by the United States Department of Agriculture.)

Plantations of the locust tree can be successfully protected from the borers and grown profitably on a commercial scale if the trees are planted in thick stands or mixed with other trees, so as to produce a densely shaded condition during the first ten to fifteen years. Investigations of the United States department of agriculture showed that more trees were destroyed by borers in tracts which had been pruned occasionally or closely grazed, or in which fire had killed out the underbrush, thus destroying the natural shade produced by weeds and shrubs.

The danger the underbrush about the trunks of the trees, the less the damage done by borers. Trees growing from two to three feet apart were seldom injured, while nearly isolated trees were riddled by borers.

All trees and all parts of the tree are not subject to the same degree to attack by the borer. Rough bark provides crevices in which the borers deposit their eggs. Young trees, less than one and one-half to two inches at the base, are not attacked unless the bark is rough. On younger trees the borers are found at the base and near rough crevices. Trees with trunks more than five or six inches in diameter rarely contain the insects. On such trees the larger branches frequently are infested; but such injury is seldom common enough to do much harm. Protection from borers is necessary for only a comparatively short period during the tree's growth. Under good growing conditions this time should not exceed ten years.

The locust is widely planted for ornamental and shade purposes. It is highly desirable because it grows readily in a variety of soils and situations. It grows rapidly and forms a simple crown when planted in the open. But it is frequently attacked by borers. This is because shade trees are planted singly and in the open, thus furnishing favorable conditions for attack.

Young borers can be killed readily by the use of an arsenical spray. Spraying will be necessary only every two or three years unless badly infested trees nearby are not treated. As a rule, spraying will not be needed after trees reach six inches in diameter. Trees of this size are usually immune from attack, but should be watched.

Locusts make such desirable shade trees that they should not be neglected and allowed to become injured or destroyed by borers. The increasing value of black or yellow locust for many purposes makes it a profitable tree to grow commercially and emphasizes the importance of protecting it from the borer.

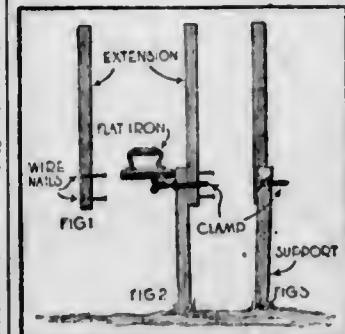

FOR INCREASED TOMATO CROP

Illustrations Show How Supports Can Be Constructed to Hold Plants in Position.

It is usually necessary to attach a vertical extension to a large number of stakes in the tomato patch at certain stages of growth.

The extensions are first prepared by driving wire nails into them, so that the points of the nails are flush with the surface of the opposite side, as in Fig. 1.

Each piece is then fitted into position and held by an ordinary iron

Helping the Tomato Plants to Get Up in the World by Means of Lengthened Supports.

clamp, as in Fig. 2. Holding the flat iron against the bottom surface will steadily support while the nail is driven through and clinched.

This device will help in getting every top stalk "plumb."—James M. Kaine in Popular Science Monthly.

USE EFFECTIVE LICE POWDER

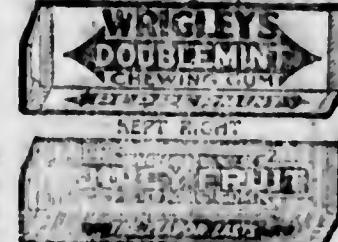

Always in Order in Ridding Fowls of Insects—Kerosene Will Exterminate Mites.

(Prepared by the United States Department of Agriculture.)

The free use of an effective lice powder is always in order. A dust bath is very essential in ridding the fowls of lice. Whitewashing is effective against vermin. Use kerosene on the roosts and in the cracks to exterminate mites.

Spasmodic Sermon.
Telephonically speaking, crossed lines
lead to cross words.

Moroccan Charm.
Moroccan wives have a recipe for
winning back affection. The husband
draws a line of honey from
forehead to chin and collects the drippings.
Then she rubs the tip of her
tongue with a big leaf till it bleeds
and soaks seven grains of salt in the blood.
She mixes with the honey and
puts the dose in the erring husband's food.

Daily Thought.
Valor consists in the power of self-
recovery.—Emerson.

Steel and Iron.
Steel is a kind of iron which can
easily be hammered out thin without
cracking and can be made extremely
hard by being heated and then cooled
quickly. It is different from ordinary
iron because of the amount of carbon
in it. Wrought iron contains less carbon
than steel and so it cannot be
made so hard; cast iron contains more
and so is brittle.

**SPEAKER GILL-
ETT'S STATEMENT**
Presiding Officer Of
Lower House of Con-
gress Tells of the
Nation's Needs.

The following is a signed statement made by Frederick H. Gillett, of Massachusetts, Speaker of the House of Representatives in Congress:

"When the United States entered into the great world conflict the people were asked to lend their dollars to help defray the war bills. The interest on these dollars which were invested in Liberty Bonds and War Savings Stamps consisted not only in increased return of money, but in something more concrete. The money lent to the Government during the war helped to bring victory, the most precious dividend ever declared; and that victory, is shared by all, even by those who did not lend their money to the Government.

"The Government is still in need of funds to help meet our post-war obligations. If victory means anything to us as Americans we should all be willing to do our share in meeting the obligations incurred in achieving that much desired goal. The dividend to be declared this time will be possible because of the victory won. It will be a dividend manifested in terms of ships bringing back to us our brave boys who died that we might live, in terms of increased happiness and prosperity and economic stability.

"By investing in War Savings and Thrift Stamps we are not only helping the Government in a very concrete way, but are doing it by helping ourselves."

Natural Charclover
Nature has provided a new and
superb crop in the Island of Curaçao.
The plant has no disease or pests
and is a certain money maker.
The old solid charclover is inferior
and up through its center one of the
quick growing trees of the tropics is
sprouting spreading its branches out
to the top of the huge clump and is
now in full bloom.

Physicians' Oath.
A part of the Hippocratic oath is as
follows: "Whatever in connection
with my professional practice, or not
in connection with it, I may see or hear
in the lives of men which ought not to
be spoken abroad, I will not divulge,
as reckoning that all such should be
kept secret." This oath is respected
by every court in the world, and is
indeed law if ever been broken by a
reputable physician.

Club Screens School.
Home Demonstration club work in
Henderson County is fighting the fly.
This sanitary campaign is bearing
fruit. At a meeting at Staples, in
that County, the matter of screening
the school was taken up and discussed.
One club member donated the
screen door and every other member
present pledged herself to share in
the expense of screening the windows.
This club plans to have this work
done in time for the opening of
school.

Boys Buy Bank Stock.
Marshall County has a bunker who
is very farsighted, especially when it
comes to the citizens of tomorrow.
A recent report to the College of Agri-
culture contains the following:
"Had a good meeting of the boys
around Birmingham Saturday afternoon.
The banker there, Mr. M. L. Cox,
who is financing the sheep clan,
made the boys a proposition that
struck me as far sighted. He is con-
templating increasing the capital
stock of the bank in order to give
those boys an inclined an opportunity
to become stockholders in his institution.
He is doing it solely as a con-
structive business proposition for the
boy and the bank. Club work has
emphasized to him the importance of
the boy."

At Death's Door.
"I was talking with my neighbor,
Mr. Webb, the other day, regarding
the great trouble his stomach had
given him. He said he suffered 7 or
8 years, and had been almost at
death's door a number of times from
acute indigestion and bloating of
gas, which seemed to shut off his
heart action. He said he wouldn't
have lived much longer if he hadn't
taken Mayr's Wonderful Remedy
when he did, which made a well man
of him." It is a simple, harmless
preparation that removes the catarrhal
mucus from the intestinal tract and
slings the inflammation which
causes practically all stomach, liver
and intestinal ailments, including ap-
pendicitis. One dose will convince
or money refunded.

R. E. Mr. ROBERTS, Druggist, Lan-
caster, Kentucky.

230 ACRES LINCOLN COUNTY LAND AT AUCTION WEDNESDAY, JULY 16th 10 O'CLOCK.

I will sell to the highest bidder the first class and highly productive farm of S. B. Sanders and W. S. Carrier, on the Rush Branch pike, near Hubble, 5 miles from Stanford, 6 miles from Lancaster, 7 miles from Danville.

The best location ever. Accessible to three markets. Farmers in this neighborhood always get a better price for stock and farm products by reason of the competition of buyers from three county seats. Make inquiry of these farmers and you will find this is true.

The land is very fertile, level and rolling, long frontage on pike. Will be subdivided and "SOLD" in several tracts from 25 to 100 acres in each tract. Look it over before day of sale and we will "bunch" two or more tracts if you want to buy it that way.

Main dwelling, 5 rooms, porches, etc., one 3 room tenant house, one 5 room tenant house, 2 stock barns, 3 new tobacco barns.

35 acres in corn, 20 acres in tobacco,
40 acres in wheat stubble, 10 acres rye and grass,
20 acres orchard grass and clover, 110 acres Blue Grass.
Everlasting water.

See this farm before you buy. In the BEST neighborhood in Kentucky. Close to school and churches. Most centrally located. Sale made to dissolve partnership.

What is the use of further description? "My goods are on the counter". Look them over. Attend this sale and get one of the bargains in land. This will be a money maker for some one.

Possession January 1, 1920.

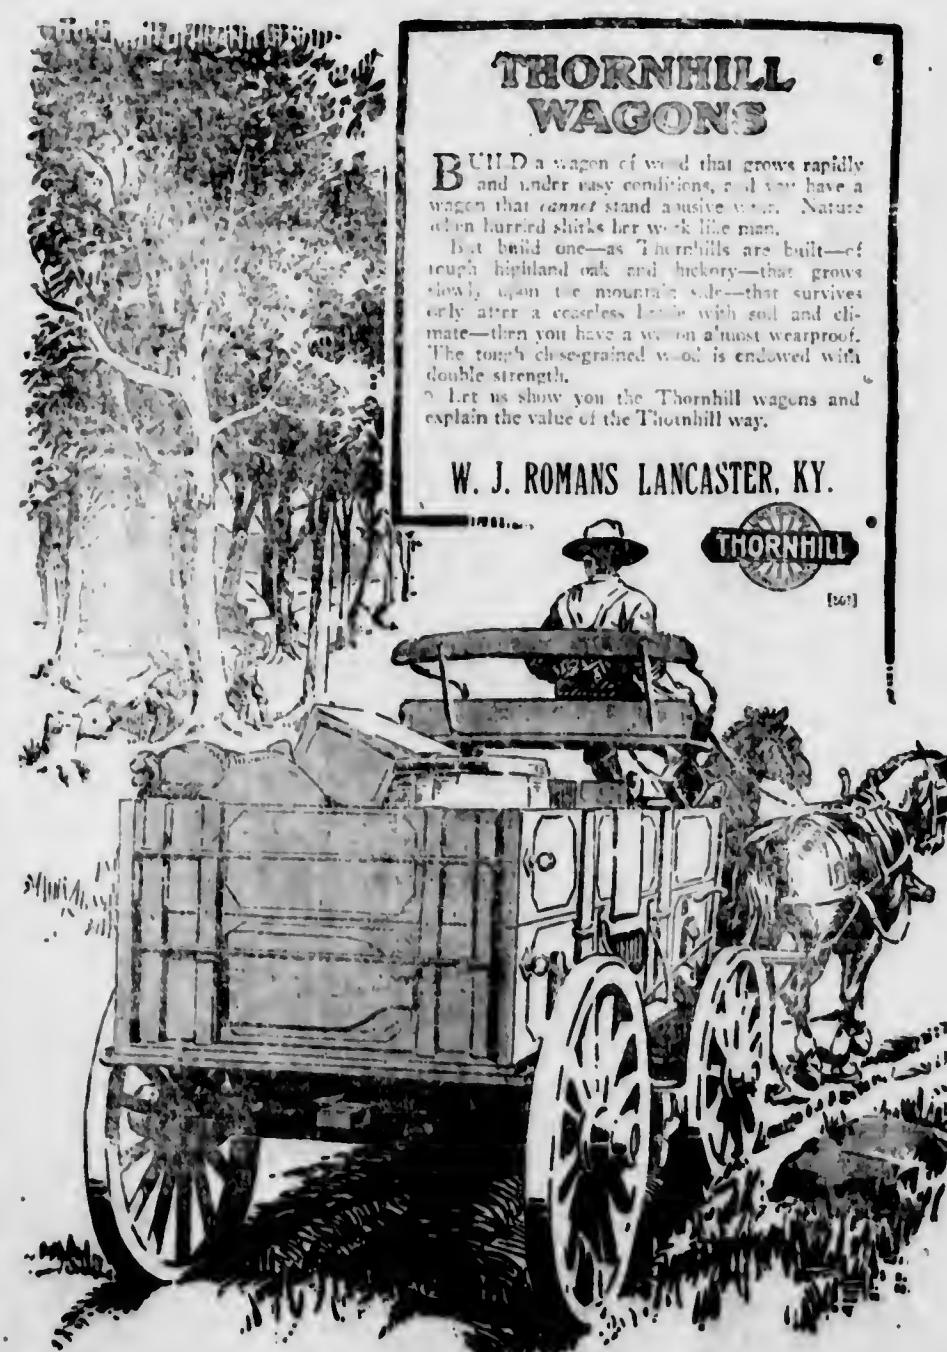

Easy Terms.

SWINEBROAD, THE REAL ESTATE MAN.

LANCASTER, KENTUCKY.

W. E. MOSS, Advertising Manager.

Look up the advertisements of my auction sales on July 15th, July 21st, July 22nd and July 23rd.

THORNHILL WAGONS

BUILD a wagon of wood that grows rapidly
and under easy conditions, and you have a
wagon that cannot stand a use. Nature
will burnish such a wagon like man.

Buy build one—as Thornhills are built—of
tough highland oak and hickory—that grows
slowly upon the mountain side—that survives
only after a ceaseless battle with god and climate—then you have a wagon almost wearproof.
The tough closegrained wood is endowed with
double strength.

Let us show you the Thornhill wagons and
explain the value of the Thornhill way.

W. J. ROMANS LANCASTER, KY.

MAXIMUM SEED CROP IS URGED

Seeding of 1918 Was Lost in
Many Sections of Country
on Account of Drought.

CONTROL OF CLOVER FLOWER

Best Method Is to Destroy Larvae of
First Brood—Adults Do Not Live
Very Long—Watch Horses Pas-
turing on Alike.

(Prepared by the United States Department of Agriculture.)

Even if there should be a good season for clover, the crop of seed cannot be as large as the country needs, because the seeding of 1918 was lost in a great many sections through drought. It is desirable, therefore, that a maximum seed crop be produced if possible. The method of controlling this clover flower midge is to destroy the larvae of the first brood. The adults that have lived over winter will lay their eggs in the flowers of the first crop of red clover. These adults do not live very long, and if the first brood can be kept from producing bloom when the adults are flying, or if the bloom can be cut before the larvae mature, there will be very few if any adults to attack the second or seed crop of red clover. Details in regard to this matter can be found in Farmers' Bulletin 971.

Seed From June Clover.

It is sometimes desired to get seed from the first crop of June clover, and this may be done by pasturing the cover heavily enough to keep down the bloom until the latter part of May. At this time the stock may be taken to the field. In that case, the June clover will seed at about the same time as the common timothy does. However, the common practice is to take a crop of hay and allow the second crop to make seed. When this plan is followed, care will have to be taken to control the clover-flower midge in accordance with the instructions found in Farmers' Bulletin 971.

Danger in Alike.

During this month, also, farmers pasturing their horses on alike clover should keep watch of their animals.

A Good Field of Timothy and Clover Hay, With a Large Part of Clover.

especially those having white faces and white feet. A number of instances have been reported where horses have been poisoned by eating alike clover. These instances have been numerous enough to show that alike clover has a detrimental effect at certain stages of its development. Unfortunately, nothing is known yet as to the reason of this effect, but the fact that it does occur is sufficiently well established to warrant a warning on the part of the department. When horses feeding on alike clover are observed to have sores around the face and mouth, they should be immediately taken off the alike clover and put upon hay or a grass pasture. This will cure the difficulty.

RIDDING CHICKS OF VERMIN

Little Piece of Lard Rubbed on Back of Head and Neck is Quite Efficient Remedy.

(Prepared by the United States Department of Agriculture.)

Head lice on chicks is one of the drawbacks front now on. Not let up in fighting these pests should be allowed. There are many remedies on the market, but a little lard about the size of a pin rubbed thoroughly on the back of the head and neck is sufficient to rid the chick of these pests. This should be done after dark on a dry, warm night. Previous to this the coop, hen or brooder should be thoroughly attended to.

FEED AND CARE OF CHICKENS

Department of Agriculture Has Issued Circular Which Will Be Found Important.

(Prepared by the United States Department of Agriculture.)

Now that hatching is over in many sections and will be over very shortly everywhere, the real important factor is feeding and care of the youngsters. The department of agriculture at Washington issues a circular on "First Care of Baby Chicks," G-30, which is very helpful.

HAIL SPELLS DESTRUCTION

I am writing a combined policy that should attract every tobacco grower in the county. It gives you protection in the field against HAIL, and in the barn against FIRE, LIGHTNING, WINDSTORM AND TORNADO. This policy automatically covers your first load into the barn. For instance, if by chance you should happen to have a load in the barn and a storm arises with hail and lightning, and your crop is destroyed in the field by hail and your barn is struck by lightning (this happened twice last year) burning same, you will collect for damage done by Hail as well as your load in the barn.

I also wish to announce that I can now give you \$200.00 an acre protection in the field against Hail. Several have asked for this and I have had to refuse until today, but I have it for you now.

HAIL RATES.

\$50.00 limit per acre in field for hail alone at \$4.00 per acre.
\$100.00 limit per acre in field for Hail alone at \$7.00 per acre.
\$200.00 limit per acre in field for hail alone at \$14.00 per acre.

COMBINED HAIL, FIRE, LIGHTNING, WINDSTORM, & TORNADO RATES.

\$50.00 per acre against Hail with \$200.00 per acre in barn for three months at \$6.40 per acre.

\$100.00 per acre against Hail, with \$200.00 per acre in barn for three months at \$9.40 per acre.

\$200.00 per acre against Hail, with \$200.00 per acre in barn for three months at \$16.40 per acre.

From all available indications it looks as if Tobacco will be as high this year, if not higher, than last, as few planted as much as last while others not any at all, so why not spend a few dollars and protect you.

Policies go into effect at noon (12 o'clock) Thursday, July 10th, so act at once. Either phone, write or see me at the GARRARD BANK or KENGARLAN HOTEL.

THE TREATY UNDERWRITERS INSURANCE CO.,

Will Protect you.

SOLICITORS—Charley Thompson and Smiley Hill.

FARM LOANS

If you wish to borrow money upon your land, I can accommodate you at a very reasonable rate of interest. All loans are strictly confidential.

AUTOMOBILE LOANS.

If you have your special make of Automobile picked out, whether Business Truck or pleasure car, and have as much as one third to pay down, I can arrange for you to pay the balance in monthly payments and give you a year to do it in. Why not enjoy your own machine when you can purchase same on these terms.

EVERY GOOD BUSINESS MAN CARRIES INSURANCE ARE YOU A GOOD BUSINESS MAN?

It does not cost you any more to Insure in a good strong and reliable Company than in a weak one.

Investigate the CONTINENTAL INSURANCE CO., of New York, with a \$10,000,000. capital. Ask a man who carries a policy with The Continental or a man who has suffered a loss with the Continental.

Mrs. Walker Nantz who has been ill for a few weeks, continues to grow worse.

Misses Mary Lee, Lillian and Amanda Calico and Moses Lionel and Eugene Calico visited relatives at Mance Saturday night and Sunday.

On last Tuesday Mr. E. B. Cooley lost his dwelling and contents including about \$300 in money by fire. The loss was partly covered by insurance.

Please call at my office in the Court House and list your taxable property for this year, as the time is fixed and limited by the Law. DO NOT PUT THIS OFF.

A. T. SCOTT,

Gerrard Co. Tax Commissioner.

The remains of Miss Elsie Miller were laid to rest in Carterville cemetery last Wednesday afternoon. She died after a brief illness of typhoid fever. She was 22 years of age and the only daughter of Mr. Eli Miller.

Commercial Travelers

Endorse Thrift.

Commercial Selections in East KY.

Value to County of Savings Campaign

By unanimous vote the convention of the United Commercial Travelers, in session at Cumberland, Ky., recently, endorsed the Thrift and Savings Movement of the United States Treasury Department. The convention was attended by leading traveling men from the district which includes Virginia, West Virginia, Maryland and Kentucky. Not only was the movement given endorsement, but the convention pledged itself to do all in its power to advance it. It was the sense of the convention that thrift should become a national habit, inasmuch as the great promise of America's industrial and commercial power lies in the ability of the people to conserve the country's resources and an; evive expenditures of material and money with careful minds.

Rain by X-ray
An Australian invented a method for plotting the rainfall by X-ray, by directing a beam of X-rays through a higher strata of air saturated with moisture.

Unwise Business Men
There are those who are ready to rush into great ventures on impulse, as it were, not having made a careful and exhaustive survey of the situation, nor having counted the cost.

Testing for All Wool
Anybody can tell whether it is all wool or not by boiling out a little piece in a test-tube with a solution of caustic soda over an alcohol lamp. Whatever does not dissolve is not wool. This piece of clumped wisdom is pro-claimed by the Little Journal.

When Money Is a Curse
It is only when money is cheapened or worthless for some, and made impossible to others, than it becomes a curse. In short, it is a curse in such foolish social conditions that life itself is a curse.—George Bernard Shaw.

Evidently No Lover of Cards
It is very wonderful to see persons of the best sense passing hours together in shuffling and dividing a pack of cards with no conversation but in different figures. Would not a man who is made up of a few gamesters, and no other being but those of black or red spades ranged together laugh to hear any one of his species complaining that life is short?—Additional.

Country's Dark Days
The saying, "not worth a continental," came from the fact that the continental currency, issued by the continental congress, was worthless, or nearly so, during the revolution and after. As the continental congress had no power to levy taxes it was unable to redeem its promises to pay. Besides, the country was flooded with counterfeits which could not be detected.

Canada's Water Power
An important feature of the water powers of Canada is their fortunate situation with respect to existing commercial centers. Within economic transmission range of practically every important city from the Atlantic to the Pacific, except those in the central western prairies, there are clustered water-power sites which will meet the probable demands for hydro-power for generation.

The Cultivator You Hear About

THERE are a lot of cultivators on the market. Some are good—others not so good. But there is one that nearly every farmer has heard about.

International No. 4 Pivot Axle Cultivator

Every man that has ever used an International No. 4 is always ready to say a good word for its clean work and easy operation. Every man that has a horse job ever ought to put him in the field with a No. 4. Cultivators are as will bent the back of doing a clean job.

You can do the job in a row and clean out the weeds in a way that will surprise you. This is because the wheels pivot and the gangs shift on one slight motion of the foot. Easy?—It is the simplest cultivator you ever rode on. You can change the working width without stopping the team. Just a twist of the wrist.

The only way to really yourself that we are not stretching the truth and also to learn about the many other exclusive features of the No. 4 is to come in and take a look at our samples.

BECKER & BALLARD

Bryantsville, Kentucky.

MT. HEBON

Miss Bernie Montgomery of Lancaster is at home for a stay.

Mr. J. B. Dunn who has been on the sick list is able to be out.

Miss Mollie Graw and Mrs. Maggie Tracey of Judson attended services here Sunday.

Miss Bettie Scott of Nicholasville was the week end guest of Mr. and Mrs. Edd Graw.

Mr. and Mrs. Eras Rogers of Cincinnati were the guests of Mr. and Mrs. W. L. Graw, recently.

Gossip About People

A Brief Mention of the Comings and Goings by Those We Are Interested In.

Mr. and Mrs. Joe E. Robinson have returned from a short stay in Cincinnati.

Mrs. M. M. Miller of Lexington is visiting her sister, Miss Amanda Anderson.

Mrs. Cyrus Eason of Sulphur, Ky., is the guest of Mrs. Pendleton Cox, this week.

Miss Joe Faulkner of Hillsboro, O., is a guest of her grand-mother, Mrs. W. B. Mason.

Miss Sue Sutton has returned to Marsbury after a visit to Mrs. J. T. Hamilton.

S. T. Lovell is critically ill at the home of Dr. Alice Mrs. Robert Campbell, of Danville.

Mr. and Mrs. Joe Boggs of Lexington have been recent guests of Mr. and Mrs. D. G. Bailey.

Mrs. J. E. Holman and Miss Joan Mount motored to Lexington last Saturday for the day.

Miss Eva Montgomery left Monday for Frankfort after a pleasant weeks visit with some folks.

Mrs. Elizabeth Hughes has returned after a visit to her daughter, Mrs. R. A. V. in Stanford.

This Martha Beets of Lexington, is the guest of her mother, Mrs. Edna Beets, on Main Avenue.

Mrs. Alice Kinnard of Maysville, is the guest of Dr. and Mrs. J. H. Kinnard, on Maple Avenue.

Mr. and Mrs. A. C. of Sharpsburg, are on a tour for a visit to Mrs. McCollum, on Main Avenue.

Mr. and Mr. W. H. Bradshaw of Decatur, Illinois, came this week for a visit with Lancaster relatives.

Mrs. Hollie Brown gave quite an enjoyable theater party this week in honor of Mrs. Miller, of Lexington.

Mrs. Louis Landrum, Miss Lucille Sutton, Mr. and Mrs. Che. Sutton were visitors in Danville Monday.

Mr. and Mrs. George McRoberts and little daughter, Betsy Margaret, are with Mr. and Mrs. Joe Burnsides in Lancaster.

Mr. and Mrs. James Ross and little daughter, Miss Mary Miller and Mrs. Miller of Lexington are visiting Mrs. Daley.

Miss George Kagan has returned home after a two week's visit with her aunt, Mrs. J. L. Ballard, of Versailles.

Mr. and Mrs. Harvey Sutton of Cincinnati, have been recent guests of his sister, Mrs. Ben Hughes and Mr. Hughes.

Mrs. W. B. Cook, Mrs. Val Cook and Miss Helen Elizabeth Sprague, of Louisville were visitors in Danville, Monday.

Mr. and Mrs. Milton Ward and Mr. and Mrs. James K. Ward of Atlanta, Texas, were visitors of Mrs. W. G. Clark, Monday.

Mrs. Ollie Buck and little daughter, Grace Curtis, of Danville were visitors of Mrs. W. B. Ball, on Richmond Street, Monday.

Mrs. V. A. Lear, Misses Marlie and Nancy Thomas, Lear motored to Graham Springs, Friday and spent a delightful 4th.

Miss Ruth Montgomery of Bourne, was the guest most of last week of Miss Lillian and Eulah Montgomery on Cradle Orchard street.

Mrs. Mae Hughes Noland and daughter, Miss Nellie, have gone to Lake Chautauqua, N. Y., where they will spend several weeks.

Miss Joe Hord Frank is visiting friends in Sturgis.

Mrs. T. K. Watson of Ely's Ky., is the guest of Mrs. John M. Furr.

Mrs. Mary A. Green, of Burgin, is visiting her daughter, Mrs. Hager.

Miss Mary Neal of Danville, is the guest of her sister, Mrs. J. B. Woods.

Mrs. William Hopper of Burgin, has been visiting friends in Lancaster.

Mrs. Margaret Payne of Lexington has been the guest of Mr. and Mrs. J. B. Compton on Richmond street.

Miss Mary Miller Woods has returned from a delightful visit to relatives in Danville.

Mrs. Ernest Sprague, of Louisville, spent the weekend with Mrs. W. R. Cook.

Mr. R. L. Walker has returned from a visit to relatives in Richmond and Nicholasville.

Mr. and Mrs. George McRoberts and daughter, Betsy Margaret, are guests of relatives here this week.

Mrs. John Evans, of Lexington, is visiting Mr. and Mrs. Pennington, on Richmond street.

Mrs. Laverne Hicks has returned from a visit to Miss Mary Margaret Furr, in Lexington.

Mr. J. E. Dickerson and daughter, Mrs. Pearl Dickerson, were visitors in Danville, Monday.

Mrs. Lizzie Richardson, of Lexington, is expected this week for a visit to her sister, Mrs. Bid Robinson.

Mrs. Sallie Kruger, of Bowling Green, is the guest of her sister, Miss Jane Hopper, on Richmond street.

Mrs. C. M. Leland, of Tacoma, Washington, is visiting her niece, Mrs. M. Patterson, on Richmond street.

Mr. Richard Lucy has accepted a position at McRoberts Drug Store, and will be delighted to see his many friends.

Miss Edna Berkele entertained at her home on Lexington avenue with an afternoon tea. A delicious luncheon of perfect appointments was served. About twelve guests were present.

Mr. Stanley Gulley, who has just returned from overseas, has received his honorable discharge and returned to Lancaster.

Mrs. Bellas Burnam, Mr. and Mrs. Jennings Greenleaf and children, of Richmond, have been recent visitors in Lancaster.

Mr. and Mrs. John Murphy of Indianapolis, spent several days here the past week with Lancaster and Garrard relatives and friends.

Miss Anna Greenwald, head trimmer in Mrs. Bella Arnold Francis' millinery parlors, has returned to her home in Chattanooga, Tenn.

Dr. and Mrs. J. J. Pursley and handsome little son, of Louisville, are the guests of her parents, Mr. and Mrs. Allie Sanders, on Danville St.

Mr. and Mrs. R. L. Elkin have returned from a week end visit to Mr. and Mrs. Warren Witherspoon at their hospitable home in Lexington.

Mrs. James Layton, of Covington, and Miss Edna Gulley, teacher of the School for the Deaf in Canada, are guests of Mr. and Mrs. D. Gulley on Danville avenue.

Mr. and Mrs. J. J. Montgomery of Camp Nelson and Mrs. W. H. Montgomery were the guests of Mr. and Mrs. A. O. Montgomery near Bourne, Saturday night and Sunday.

Major Virgil Kinnard, who has been overseas for a year, is expected this week home. His wife who has been with her parents during the Major's absence will join him here.

Miss Allie Arnold left Monday for Graton, Mass., where she will be the guest of her friend, Mrs. E. Preston Leonard. Before her return she will visit Boston, Mass., Pittsburgh, Pa., and Columbus Ohio.

Mrs. James Layton, of Covington, and Miss Edna Gulley, teacher of the School for the Deaf in Canada, are guests of Mr. and Mrs. D. Gulley on Danville avenue.

Miss Mittie Dunn entertained with a most delightful picture show party followed by refreshments served at Sturmes' Drug Store. After the refreshments they were invited to the home of Mr. and Mrs. J. W. Miller to witness the fireworks of which Mr. Robert E. Hughes gave in honor of his daughter, Miss Margaret Hughes.

On last Tuesday evening Mrs. R. L. Hagan entertained her daughter, Miss Elizabeth, at a six o'clock dinner in honor of Miss Moore of Danville and Miss Marie Ballard who is at home from the D. and D. school of Morgantown, North Carolina. Those present were Mr. and Mrs. John Ballard, and daughter, Miss Marie and Miss Moore.

Mrs. E. L. Owsley entertained Tuesday evening at a picture show party in honor of Miss Helen Elizabeth Sprague, who is the attractive guest of Mrs. W. R. Cook. After the show refreshments were served at Sturmes' Drug Store. The guests were, Miss Helen Elizabeth Sprague, of Louisville, Miss Laura Dunn, of Lexington, Miss Francis Grant, Miss Helen Gulley, Mr. A. C. Sanders, Mr. J. R. Haselden, Jr., Mr. Samuel Elliott and George Lawson.

Mr. and Mrs. Irvin Powell entertained last Saturday evening with an informal party at their home in the country, on the Versailles pike, in honor of their cousin, Miss Laverne Hicks, of Lancaster, Ky., who is visiting Miss Mary Margaret Jordan. Music and entertaining games were enjoyed. Mrs. Powell was assisted in entertaining by her cousin, Miss Viola Bailey, and niece, Miss Avel

Mr. J. E. Elmore is visiting his parents, Mr. and Mrs. J. W. Elmore.

Mr. Alex West has just returned from a visit to relatives in Nicholasville.

Mrs. Catheryn Tinsley, of New York City, is visiting her parents, Mr. and Mrs. J. B. Conn.

Miss Mary Neal of Danville, is the guest of her sister, Mrs. J. B. Woods.

Mrs. William Hopper of Burgin, has been visiting friends in Lancaster.

Mrs. Margaret Payne of Lexington has been the guest of Mr. and Mrs. J. B. Compton on Richmond street.

Mr. A. R. Mount entertained Wednesday at a family dinner in honor of Mr. and Mrs. George McRoberts.

Mrs. R. L. Elkin entertained informally in honor of Mrs. George McRoberts and Mrs. T. K. Winton.

Mr. and Mrs. George McRoberts and daughter, Betsy Margaret, are guests of relatives here this week.

The Junior Sunday School of the Christian Church had a delightful picnic at the Iron Bridge last Tuesday.

Mrs. J. T. Pedder and Mrs. Ethelma Pedder, have joined Mr. Pedder here and are staying at the Lexington.

Mr. A. T. Scott, has just received word of the arrival of his son from overseas. He has arrived at New York November the 21st.

Little Georgetta Walker, the pretty and attractive daughter of Mr. and Mrs. Steven Walker, has been quite ill but we are glad to state is better.

Mr. Ed Doty of El Paso, Texas, and Mrs. J. B. Jennings and son, James, of Tulsa Okla., arrived yesterday and are guests of relatives in the city.

Mr. and Mrs. Oliver Wallace and two attractive daughters, Miss Annie Wallace and Miss Olive Todd, were guests for the day yesterday of Mr. and Mrs. Saufley Hughes.

Mr. and Mrs. Oliver Wallace and two attractive daughters, Miss Annie Wallace and Miss Olive Todd, were guests for the day yesterday of Mr. and Mrs. Saufley Hughes.

Miss Edna Berkele entertained at her home on Lexington avenue with an afternoon tea. A delicious luncheon of perfect appointments was served. About twelve guests were present.

Mr. Stanley Gulley, who has just returned from overseas, has received his honorable discharge and returned to Lancaster.

Mrs. Bellas Burnam, Mr. and Mrs. Jennings Greenleaf and children, of Richmond, have been recent visitors in Lancaster.

Mr. and Mrs. John Murphy of Indianapolis, spent several days here the past week with Lancaster and Garrard relatives and friends.

Miss Anna Greenwald, head trimmer in Mrs. Bella Arnold Francis' millinery parlors, has returned to her home in Chattanooga, Tenn.

Dr. and Mrs. J. J. Pursley and handsome little son, of Louisville, are the guests of her parents, Mr. and Mrs. Allie Sanders, on Danville St.

Mr. and Mrs. R. L. Elkin have returned from a week end visit to Mr. and Mrs. Warren Witherspoon at their hospitable home in Lexington.

Mrs. James Layton, of Covington, and Miss Edna Gulley, teacher of the School for the Deaf in Canada, are guests of Mr. and Mrs. D. Gulley on Danville avenue.

Mr. and Mrs. J. J. Montgomery of Camp Nelson and Mrs. W. H. Montgomery were the guests of Mr. and Mrs. A. O. Montgomery near Bourne, Saturday night and Sunday.

Major Virgil Kinnard, who has been overseas for a year, is expected this week home. His wife who has been with her parents during the Major's absence will join him here.

Miss Allie Arnold left Monday for Graton, Mass., where she will be the guest of her friend, Mrs. E. Preston Leonard. Before her return she will visit Boston, Mass., Pittsburgh, Pa., and Columbus Ohio.

Mrs. James Layton, of Covington, and Miss Edna Gulley, teacher of the School for the Deaf in Canada, are guests of Mr. and Mrs. D. Gulley on Danville avenue.

W. Miller to witness the fireworks of which Mr. Robert E. Hughes gave in honor of his daughter, Miss Margaret Hughes.

On last Tuesday evening Mrs. R. L. Hagan entertained her daughter, Miss Elizabeth, at a six o'clock dinner in honor of Miss Moore of Danville and Miss Marie Ballard who is at home from the D. and D. school of Morgantown, North Carolina. Those present were Mr. and Mrs. John Ballard, and daughter, Miss Marie and Miss Moore.

Mrs. E. L. Owsley entertained Tuesday evening at a picture show party in honor of Miss Helen Elizabeth Sprague, who is the attractive guest of Mrs. W. R. Cook. After the show refreshments were served at Sturmes' Drug Store. The guests were, Miss Helen Elizabeth Sprague, of Louisville, Miss Laura Dunn, of Lexington, Miss Francis Grant, Miss Helen Gulley, Mr. A. C. Sanders, Mr. J. R. Haselden, Jr., Mr. Samuel Elliott and George Lawson.

Mr. and Mrs. Irvin Powell entertained last Saturday evening with an informal party at their home in the country, on the Versailles pike, in honor of their cousin, Miss Laverne Hicks, of Lancaster, Ky., who is visiting Miss Mary Margaret Jordan. Music and entertaining games were enjoyed. Mrs. Powell was assisted in entertaining by her cousin, Miss Viola Bailey, and niece, Miss Avel

Powell. A delicious lunch was served and those who enjoyed the hospitality were: Misses Laverne Hicks, Viola Bailey, Avel Powell, Mary Margaret Jordan, Katherine Stutts and Mrs. A. A. Stutts, Misses Joe Jordan, Fred Chapman and Wilmore Brewer. — Lexington Herald

Mrs. Pattie Anderson entertained the past week at her home on Richmond avenue, with a reunion of several classes of old Franklin Institute. Garden flowers and many beautiful spring blossoms filled the home throughout, adding much to the beauty of the party. A delicious salad course was served. The guests were: Mrs. W. M. Bogle, of New Orleans, Mrs. B. A. Dawes, of Bryantsville, Mrs. Maggie Robinson, Mrs. Bid Robinson, Mrs. Mattie Duncan, Mrs. George Robinson, Mrs. J. E. Storms, Miss Anna Andersen and Miss Jessie Dunham.

Tail of the Fox.

One of the most notable features of the fox is his large and massive tail, writes John Burroughs. Seen running on the snow at a distance, his tail is as conspicuous as his body; and so far as appearing a burden, seems to contribute to his lightness and buoyancy. It softens the outline of his movements, and repeats or continues to the eye the case and poise of his carriage.

Undoubted Proof.

An eminent physicist was about to give a recital in large hall. As the audience was filing in and staggered up in the door and presented a ticket, "You cannot go in," said the official in charge; "you are not in a fit condition." "Today I pay for my ticket," said the man. "It's all right," was the reply, "but you—you are all wrong—you are hideously ill." "I say nothing. Of course I'm not fit." If I wouldn't do you think I would come to a piano recital?"

The Astrologer.

An astrologer who was famed for his great learning and his knowledge of the stars went out for a walk. As he walked he was looking up at the sky to study his stars. At the same time he said to himself, "How on the world am I in trim most now. All the stars in the sky are known to me. I read them as other men read books." Thus speaking, he came to a well, but, being far too busy prancing for own cleverness, he notice it, he tripped and fell into the headlong, and there he had to stay until his servant, hearing his cries, came and pulled him out.—Aesop's Fables.

Whence "Dutch."

The name Dutch is derived from Dietrich, meaning the verminular, as distinguished from Latin. It is the same word as the German Deutsch. Dutch belongs to the Frisian division of the Low German, and is closely related to the Frisian, with which it is now practically identified in its written form. The Dutch language is one of the vernaculars of Europe, and is practically the same in its structure.

New Water Power.

A new use of ocean water power has been perfected by an English man.

He catches water when the tide rises and makes it operate turbine engines when the tide falls. Thus he obtains a perpetual water power, as the tide always rises and falls.

Violet Highly Prized.

The violet was the national flower of the Athenians, and the men of

Masters of Worry.

The person who shows no worry is fortunate indeed. Of such a happy man

TEACH THRASHERMEN
TO SAVE ALL GRAIN

Department of Agriculture Plans
Conservation This Year.

Schools Will Be Opened to Give In-
struction on Operation of Machines
and Adjustment—Many Own-
ers Are Inexperienced.

(Prepared by the United States Department of Agriculture)

Grain saving last year filled 11,000,000 two-dashshel sacks with wheat which otherwise would have been wasted in straw stacks or over fields. To increase this conservation record this year and to facilitate more efficient operation of threshing machines, the United States department of agriculture, in co-operation with the directors of extension work in state agricultural colleges, will conduct schools of three and four days for thrashermen. Instruction will include studies of the proper operation, adjustment, repair and maintenance of separators and gas and steam engines.

Approximately 250,000 threshing machines are in the United States. Many owners are not thoroughly experienced in their management and repair. All are expected to be benefited.

Reduce the Waists of Grain at Threshing Time.

If they attend the thrashermen's school in their localities, every thrasher who is interested in saving grain, reducing idle time when his machine is out of commission, and lengthening the active service of his separator, should attend a thrasher's school where he will be taught the when, why, where, and how to operate a threshing outfit and keeping it in the pink of working condition.

The purpose is primarily to improve threshing conditions. Instruction will cover the theory of the separator, the operation, care and adjustment of the machine, and sufficient laboratory work to give students skill in adjusting and operating. It is contemplated to hold schools immediately after or prior to the one-day grain standardization schools, directed by the federal department's bureau of markets.

Necessity for practical education of American thrashermen was brought out strikingly by results in Minnesota last year regarding the normal waste of grain in threshing. Comprehensive tests, which included the work of the more than 6,000 machines in the upper state, showed that the average avoidable loss in threshing wheat was 1,621 bushels a day, worth approximately \$9.64; while the avoidable loss in threshing oats was 8,11 bushels daily, worth them \$5.46. Some of the separators wasted as much as 50 bushels of wheat a day, worth, on the basis of the October market, \$103. Twenty-five per cent of all the machines tested in Minnesota showed an avoidable loss, due to the machines being out of repair or improperly adjusted, of 15 bushels a day. Therefore, Minnesota today is a staunch advocate of teaching thrashermen the three W's—using, repairing and readjusting their threshing outfits.

EXPERIENCE OF OWNERS

(Prepared by the United States Department of Agriculture)

Help for American farmers in answering the question "Shall I Buy a Tractor?" has been provided by the United States department of agriculture in a number of publications which give the experience of users in a number of states. These bulletins, which may be obtained free from the department at Washington, are:

Farmers' Bulletin 963—Tractor Experience in Illinois.

Farmers' Bulletin 1004—Gas Tractors in Eastern Farming.

Farmers' Bulletin 1035—The Farm Tractor in the Dakotas.

Farmers' Bulletin 710—An Economic Study of the Farm Tractor in the Corn Belt.

Department Bulletin 171—Farm Experience With Tractor.

Toad is Gardner's Friend. The common toad is the gardener's friend, because he lives upon the small insects that trouble the garden crops. A few toads in the garden will help keep it free of insects.

Careful With Poison. Receptacles containing poison bait should not be left around where children, live stock and chickens will have access to it.

DISPERSAL

SALE

Of

REGISTERED HERD

-- OF --

Aberdeen Angus CATTLE

On

Wednesday,

JULY 23rd

10 O'CLOCK.

R. H. Crow having sold his farm for immediate possession will on the above date at his farm 3 miles from Shelby City, in Lincoln county, sell at auction his fine herd of cattle:

13 cows, 3 with calves at foot,

3 two year old bulls,

1 yearling bull,

2 seven months calves.

At the same time will sell the following stock and other personal property:

2 grade milch cows with calves.

1 three year old Jersey milk cow,

1 yearling steer,

2 grade calves,

5 grade heifers,

1 pair horse mules,

1 combined pony,

1 two year old filly by best son of Bohemian King.

1 fancy driving mare,

1 buggy and harness,

1 spring wagon,

Also a lot of wagon and plow gear, farm implements, corn, clover hay, household and kitchen furniture.

8 Registered and grade Duroc sows; 30 Duroc shotes, weight 110 pounds; 15 Duroc shotes, weight 60 pounds.

Swinebroad,
The Real Estate Man,

SALES MANAGER.

W. E. MOSS, Adv. Mgr.

BRYANTSVILLE

Miss Mayme Ballard spent Monday in Lexington.

Several from here attended the S. S. Picnic Friday at Dix river.

Mrs. Owend Moreland and son are visiting friends at Georgetown.

Miss Margaret Woolfolk was the guest last week of Miss Mayme Lee Ballard.

Miss Marie Cey of Madison was a guest last week of her aunt, Mrs. R. I. Burton.

Several from here have been attending the Chautauqua in Danville this week.

Mrs. Florence Ballard is at home after spending several days at Crab Orchard.

Master John Campbell King of Louisville is spending the week with Jack Williams.

Miss Helen Young who spent the last year in Panama, has been visiting Mrs. W. H. Swope.

Mr. and Mrs. Mershon of Corbin, were the guests recently of Mr. and Mrs. M. O. Kennedy.

The farmers of this vicinity have been quite busy the past week, getting their wheat threshed and cutting hay.

Miss May Johnson and brother, Mr. Herbert Johnson of Hamilton, Ohio, visited Miss Mary Belle Halecom recently.

Mrs. W. J. Hogan went to Lexington where she was called by the illness of her daughter, Mrs. W. T. Woolfolk.

Mrs. B. C. Rose was hostess at an elegant dinner Thursday evening in honor of Miss Marguerite Woolfolk, of Lexington.

Mr. and Mrs. A. B. Swope and Mr. and Mrs. C. Hecker motored to Nashville Sunday to spend the day with Mrs. J. O. Bates.

Mrs. Sam Deatherage and daughters, Misses Valinda and Martha, of Richmond, Mrs. H. B. Montgomery, of Paint Lick, visited Mrs. J. W. Bryant Tuesday.

Please call at my office in the Court House and list your taxable property for this year, as the time is fixed and limited by the Law. DO NOT PUT THIS OFF.

A. T. SCOTT,
Garrard Co. Tax Commissioner.

Mrs. E. H. Ballard, Miss Mayme Ballard, Miss Marguerite Woolfolk, of Lexington, Mr. and Mrs. J. Hogan Ballard, were the guests Sunday of Mr. and Mrs. E. H. Ballard at Stanford.

Mr. Edwin Wylie had the misfortune to break his arm last week while trying to crank a Ford car. He is getting along nicely and his many friends are hoping for his speedy recovery.

Misses Lucille Moore, Ada Lee Morgan, Sara Catherine King, Evelyn Campbell, Mrs. F. L. Campbell and Mrs. J. C. King, all of Louisville, were dinner guests of Mrs. J. C. Williams Wednesday.

Rev. G. S. Conant and family have returned from Columbus Ohio, where they attended the Centenary. They made the trip in their car. Rev. Conant will fill his regular appointment at the Methodist church Sunday morning and evening.

Dr. H. C. Rose had the misfortune to have his barn burn Saturday night about 12 o'clock. The origin of the fire is unknown. The barn and all contents were completely destroyed. The greatest part of the loss being two "Ford" Sedans. There was no insurance, either on the property or the cars.

Mrs. J. Hogan Ballard entertained about twenty friends at a very delightful "Lawn fete" Friday evening. A most tempting lunch was served and miniature American flags were given as souvenirs in honor of Independence Day. Later in the evening Miss Amy Dawes entertained the guests with some beautiful violin selections.

French Port Regains Trade. While Hayne was still voting the young men of Holland engaged in raiding, invaded Quebec and established numerous trading posts in the Mohawk valley. The town's commerce was eventually absorbed by Hayne. After the outbreak of the great war, however, Holland had prosperous exports trade with England in dairy products, fruits and vegetables and a considerable quantity of timber was imported direct from the Scandinavian countries.

Lake of Sulphate. A lake near Bégin, Saskatchewan, about three hundred miles west of Regina, has been found to be saturated with sodium sulphate, and the deposit under the lake and along the edge to be nearly 97 per cent pure sulphate. The mineral is used extensively in the manufacture of sulphuric acid, in photography and other industrial purposes. The lake occupies an area of about two hundred acres. The edge is muddy, but on down a solid bed of sulphurite is found.

HESSIAN FLY IS VERY INJURIOUS

Another Outbreak of Pest Is Expected, Perhaps Within Next Few Months.

CAPABLE OF GREAT DAMAGE

Insect Feeds Chiefly on Wheat Plant and in Smaller Measure on Barley and Rye—Straws Break and Fall Before the Harvest.

(Prepared by the United States Department of Agriculture.)

Knowledge in possession of experts of the United States department of agriculture tends to the belief that the Hessian fly, the worst enemy of wheat, has begun gradually to increase. The percentage of infestation according to the fall count, showed a distinct increase over that of last year. The principal controlling parasites are apparently absent or very scarce, particularly in the middle West. Another outbreak of the pest is expected, perhaps within the next few months. The accompanying illustration which is being distributed by the department as a poster, presents the means of combating it.

Among insect crop pests in the United States the Hessian fly stands first in evil reputation and possibilities. In ten years hundreds of thousands of acres of wheat may be totally destroyed or the yield reduced as much as 75 per cent by this parasite.

Named for Mercenaries.

The Hessian fly is not a native of America and nobody knows whence it came or how. It was noticed in 1770 on Long Island, N. Y., in the vicinity of the place where Lord Howe's army, largely Hessian mercenaries, had camped three years before. The popular belief was that the Hessians had brought the insect over in the straw used by them as bedding on their ships. Thus came the name and that guess is as good as any as to how the fly got here. All that can be authoritatively said is that it arrived from some transatlantic country sometime after the middle of the eighteenth century.

The Hessian fly is one-tenth of an inch long, of an obscure dark color, and appears much like a very small mosquito. It has a glossy red egg sac underneath a nugget slightly smaller than the egg. This transforms into

That do not heat your kitchen. Cheaper than coal.

W. J. ROMANS.

Means of Combating Hessian Fly.

A pupa that appears like a flyseed and is so called. From the flyseed the adult fly emerges. Here are four terms so extremely unlike as to be confusing to any except the expert entomologist.

The fly usually deposits its eggs in grooves on the under side of the leaves of wheat. The larva, shortly after hatching, bores its way down the stem and behind the sheath, continuing to young wheat to the roots of the plant. In older wheat it is able to go only to the joint below. Larvae are frequently so numerous as to be piled one against another and overlapping. Two generations a year are produced, overwintering in the flyseed stage.

Destructive to Wheat. The Hessian fly feeds chiefly on the wheat plant, and in a smaller measure on barley and rye. The out plant is immune. The effect is that if infestation begins while the wheat is young, the plant grows without stem and becomes no more than a mass of overgrown leaves. If infestation comes after jointing has begun, the straws break over and the wheat falls before harvest.

The distribution of this pest includes North Africa, western Asia, all of continental Europe, the British Isles, New Zealand, and portions of the United States and Canada. In the United States its range extends from the Canadian border as far south as northern Georgia, and west to western Kansas, and the middle of the Dakotas. It includes also, a narrow strip of the Pacific coast from Puget Sound to a point half-way down the California coast.

Kill Canadian Thistles. Frequent cultivation will help kill a patch of Canada thistles.

Will Pay Big Interest. Deposit the manure in the soil and it will pay big interest.

INTERESTING ITEMS TAKEN FROM THE BAPTIST VISITOR.

WHO'S WHO?

A new preacher in town? Yes! James Russell Trotter is his name, come around to the parsonage and see him. . . .

Some of our oldest members are our most faithful members. Young people become more faithful, or hurry up and get old. . . .

Eugene Cochran has gone to Kansas City for the summer. We will miss Eugene, but we hope he will have a very enjoyable time. . . .

Miss Mittie Adams and Miss Faye Acton, both of Lexington, and members of our church have been with us recently and we delighted in having them. . . .

Carl Acton is back with us from the army and his sister Miss Florence is back from Georgetown College. We are indeed glad to have them in our midst again. . . .

Miss Violin Beagle, daughter of one of our former pastors recently honored us with a little visit. Come again Miss Violin and bring all the rest of the family. . . .

We learn that Brother Chay Sutton has sold his farm. Well that is alright, provided we do not lose Mr. and Mrs. Sutton from our membership. We would count that a sad loss indeed. . . .

We have lost Miss Allie Hendren, but we have gained Mrs. Wheeler. Congratulations Miss Allie. We wish you much joy and happiness—provided you do not leave us. Your recent absence has been atoned for, by the presence of your brother Owen. We wish we could have both of you regularly and also Mr. Wheeler. . . .

Our ambition and prayer is to enlist every Baptist in our vicinity. That should not be hard for us to realize as every unenlisted Baptist knows he should be in our church. His sense of loyalty to Christ demands that he unite with the nearest Baptist church.

B. Y. B. U.

This is an organization very near and very dear to the heart of the pastor. Even though he is Daddy, he is not so old himself, and loves to work with the young people. Those letters, B. Y. P. U. are full of meaning. All Baptist Young People Utilized for God. Our motto is a splendid one, "Loyalty to Christ". Young people if we will, can build up a great union and render sweet and useful service to our master. In Miss Laverne Dickerson, Elizabeth Estes, Harry Bratton and Hugh Mobley, we have splendid program leaders. There are many fine young men and young ladies in our church who can render service, if enlisted and interested. It is our duty to interest them. . . .

We should take Christ with us in our social life as well as in our religious life. In fact the two should be identical. There is such a thing as a Christian entertainment, a Christian social or a Christian picnic. We are planning some of these things for our B. Y. P. U. We all want you to have a good time and in the right way. . . .

BREEZY BITS.

Some members have already paid all their pledges. That is splendid! Some pay regularly each Sunday. That is fine!

Some have made pledges and paid nothing. That is bad!

Some have neither pledged, nor paid anything. That is worse!

The pastor goes on record as having said, he has never labored with a letter, more sympathetic, or more responsive people than his church at Lancaster. . . .

"Did that employment agency you tried make any real effort to satisfy you?"

"Well yes! I asked particularly for a cook who could make a salmon loaf, and they sent me one that could make anything loaf." . . .

Our Baptist brethren of the North have adopted a budget of \$100,000 to be raised in five years. This makes a total budget of \$175,000,000 for the Baptists of the United States.

SUNDAY SCHOOL.

No, it is not dragging. You may be, but the Sunday School is not. If you are sleepy on Sunday morning, come to Sunday School and we will wake you up. If you are tired on Sunday morning, come to Sunday School and the Lord will give you rest. If you are not interested in Sunday School, come, and we will interest you. . . .

The superintendent wielded a mighty sword last Sunday and spoke words of deep meaning. It is true our enrollment is fine, but the burning question is, what about our attendance? Our attendance is only about 40 per cent of our enrollment. In the words of an Indian, "That budi'sn't ought ter be." The trouble is that you do not attend. Help us to improve our attendance. . . .

Our superintendent is very insist-

ent that everyone bring a Bible to Sunday School. That is right. The Bible is the book we are studying. Let us make our Sunday School a real Bible school. . . .

Christian Education is the foremost need of the day. That is why the Sunday School and the Christian College play such an important part in denominational life. If you are contemplating going to college, go to a Baptist institution. We have some of the foremost Colleges in the land, and you do not have to go far to find a good one. . . .

BAPTIST CHALLENGE.

The \$5,000,000 to be raised by Southern Baptists within the next five years will be divided as follows: Educational . . . \$20,000,000 Foreign Missions . . . \$20,000,000 Home Missions . . . \$12,000,000 State Missions . . . \$11,000,000 Ministerial Relief . . . \$5,000,000 Orphanages . . . \$4,700,000 Hospital . . . \$2,125,000 National Memorial . . . \$175,000 Kentucky's quota is \$6,500,000. This is a task that challenges the hero in every soul redeemed by the blood of the Son of God.

"Johnnie, why did you laugh?" "Teacher I did not laugh. I was only smiling and the smile busted."

WHAT'S WHAT?

Let me introduce you to our newest members—Mr. and Miss Sowder. Both were formerly members of the Parkersburg church, and were very active in the young people's work of that city. We delight in welcoming them into our fellowship. There have now been 15 additions to our church. It is time for us to turn the figures the other way and make the number our our additions 51.

The people of Lancaster are proud of their new post-office. It always helps a town to have nice public buildings. The churches of the town should also be just as nice as the best public building of the town. It is no secret that Lancaster needs some new church buildings and no church needs a new building more than we. Our Sunday School, B. Y. P. U., and church work is being hindered by an antiquated building. At present we do not have adequate facilities for our work. . . .

The pastor hopes to soon be in your home as well as in your prayers and in your heart. Conditions have been so for several weeks that he could not do any visiting; but he hopes to be able to make a new start soon, and make up for lost time. He, as pastor, realizes that he should visit you in your home, and is going to do so. Do you realize that it is your duty as a member to see him every Sunday at church? Let each realize his, or her, specific duty.

We are not prepared to make a definite announcement in regard to our proposed revival meetings. It is probable that Dr. Theodore N. Compton will conduct the meeting, and that the time will be about the last of September or first of October. As yet we have received to tangible information in regard to a singer. The success or failure of the meeting depends upon you. You be ready for a revival in heart, mind, and soul and then we will have a great meeting in our church.

GIVE—your heart to Christ. Your talents to God. Your service to the Master. The place to serve is in the Church. The church in which to serve is the church of your denomination nearest you.

Great Value of Courage. It is not clearly understood how valunide is the adjunct of courage to the man or woman, nor that, if accompanied by good judgment it is the most valuable of business assets—John Brisbane Walker.

Telephone Tattle. Thieves and beggars have a "cant" language of their own. When a burglar uses the phrase, "struck by lightning," he means that he was arrested by the police whilst engaged on his little job, through information conveyed through the telephone.

Egyptian Saw. The saw appears to be the earliest tool in Egyptian history. It was found first in the form of a notched bronze knife, 5,000 years before the Christian era. There are no dated specimens until the seventh century before the Christian era, when the Assyrians used iron saws.

His Favorite. Brother was attending a party at which the refreshments served were ice cream and cake. The hostess saw that brother wasn't taking much headway with the ice cream, so asked him if he didn't care for it. "Oh, yes," he answered. "Ice cream is all right; but turkey is my favorite."

Powdered Eggs. China is one of the principal sources of dried and powdered eggs. Manufacturers of prepared products in this country are said to be interested in the possibilities of dried and powdered eggs, especially in view of the increased use of such products in ready-mixed flour and in bakeries.

Wolsey's Disinfectant. Whenever Cardinal Wolsey granted an audience to the people, or whenever he went anywhere where he was apt to have to mingle with a crowd, he carried an orange that had been especially prepared for him by removing the pulp and padding a sponge soaked with disinfectant and sweet smelling spices inside it.
